

# SHOWDOWN WITH MEXICO EXPECTED; BREAK FEARED

**Senator Fall Offers Resolutions Aiming at Severed Connections With Southern Country Unless Demands Met.**

Washington, Dec. 4.—A resolution offered in the senate by Senator Fall, Republican, New Mexico, requests President Wilson to sever diplomatic relations with Mexico.

Senator Fall, as chairman of a subcommittee investigating the Mexican situation, declared evidence had been found which "would astound the world." It also asked that the president withdraw recognition of the Carranza government.

Senator Fall boldly charged that the Mexican embassy, the consulate generals in New York and San Francisco, and the consulates along the border, with the knowledge and consent of President Carranza, had been actively engaged in the spreading of bolshevik propaganda in the United States. Evidence, it was said, would be forthcoming to bear out the charge. By this resolution, which was sent to the foreign relations committee of the senate for consideration, the whole Mexican problem, admittedly grave in view of refusal of the Carranza administration to release Consular Agent Jenkins from the penitentiary at Puebla, will be put before congress.

The latest note from the state department calling for the immediate release of Jenkins was laid before the Mexican government Monday. Word to this effect has reached the department, but there was no intimation as to when an answer might be expected.

There also was introduced in the senate a resolution by Senator Ashurst, Democrat, Arizona, authorizing the secretary of war to use the nation's forces for protecting its people in their own side of the border. For eight years Senator Ashurst said he had been waiting for the army to protect American rights along the border, and he felt that the time has come for action.

## VILLA HELD CAPTIVE BY HIS OWN ARMY

Juarez, Mexico, Dec. 4.—Francisco Villa has been captured by a force of his own men and is being held for a reward from the Mexican government, according to advices received here by Superintendent Caballero of the Chihuahua division of the National Railways of Mexico.

Two Villa rebels are reported to have presented themselves at the federal headquarters at Parral and notified the commander there that Villa had been captured and was being held for surrender to the Carranza forces. The state of Chihuahua has already offered \$50,000 pesos as reward.

Mexican officials here expressed the opinion that General Monzalvo Escobar, commander of the Juarez district, would proceed immediately to Chihuahua City for a conference with military officials.

Although the advices received by Caballero gave no details of the incident, it is known that a detachment of federal forces has been sent from Parral to the place indicated by the two Villa rebels.

## CINCINNATI TRIES FOR NEXT MEETING

Cleveland, O., Dec. 4.—Round table discussion of trade problems and addresses by leaders of the automobile industry featured the second day of the third annual convention of the Ohio Automobile Trade association. Close to 1,800 auto salesmen are attending the sessions.

Headed by three bands, a delegation of 300 members of the Summit County Auto Trade Association arrived from Akron today. Large delegations are also here from Canton, Dayton and other cities. Cincinnati is making a hot fight for the next convention.

SENATOR WHOSE ELECTION IS CALLED INTO QUESTION.

TRUMAN H. NEWBERRY.

Senator Truman H. Newberry, of Michigan, whose election over Henry Ford in November, 1918, has been under inquiry by a Federal Grand Jury at Grand Rapids Mich. It is expected that the Federal Grand Jury will present its report within a day or two. On the face of disputed returns Mr. Newberry won the election by 7,557 votes.

## XENIA MAN FRACTURES HIS SKULL IN FALL

Suffering from what is believed to be a fracture of the skull, the result of a fall when he jumped from a truck in which he was a passenger on the Lower Bellbrook pike at noon Thursday, Vinton Hull, a carpenter is in a critical condition at his home 16 Elm street.

Mr. Hull was employed at the home of J. C. Armentrout on the Lower Bellbrook pike, and was walking home at noon, when a truck driven by John A. North, Xenia plumber, overtook him, and he was invited to ride. He jumped into the back of the car, and told Mr. North that he wished to get off at E. H. Hunt's residence. As they approached the Hunt place, Mr. North began slowing the speed of his car preparatory to stopping it, but without waiting Mr. Hull jumped backward from the car while it was in motion.

He was thrown violently, and the back of his head struck the road. Allen McClain who was standing on the porch of the Hunt residence saw the man fall, and he and Mr. Hunt hurried out, and assisted the injured man into Mr. McClain's car and took him home. Mr. North hurried to a telephone to notify his family.

It was at first thought that his injury was chiefly concussion, but later hemorrhages developed.

## PERSHING TO MAKE STOP IN DAYTON

General John Pershing, accompanied by his staff of officers, who will make a tour of inspection to various military posts in the country, and who left Washington last night, will arrive in Dayton at 12:50 o'clock on the morning of December 16, it was announced last night.

The general and his party will occupy two special Pullman cars leaving Cincinnati on the Baltimore and Ohio railroad at 11 o'clock, December 15. The present schedule, according to Theodore Heiland of the B. and O., calls for General Pershing's remaining in Dayton until 3:10 o'clock on the morning of December 16, at which time they will go to Camp Sherman, Chillicothe. From Chillicothe, the party will go to Columbus.

## MISSES FOOTING IN STAIRWAY PLUNGES DOWN BREAKING ARM

Missing his footing while descending the stairway from his office in the Millen building on Green street late Wednesday afternoon, Magistrate J. E. Jones fell to the bottom of the flight, sustaining a Colles' fracture of the left wrist, and severe sprains and bruises. He is at the Espey Hospital.

Darkness in the stairway was the cause of the accident. Mr. Jones thought he had reached the landing at the turn in the flight, but instead he had one step to go. This caused him to make a misstep and plunge down the stairway. He rolled out on the sidewalk. Passers by gave him assistance, and his daughter, Miss Helen Jones was notified.

## CABINET SUSPENDS ALL JURY TRIALS

London, Dec. 4.—The cabinet has suspended jury trials in all cases of violence in Ireland, substituting three judges to hear all such charges, said a Dublin dispatch to the Daily Express, today.

## "Bricks Is Bricks" In Any Old Box

"Dynamite, handle with care." This portentous label, commanding respect from all who read it, has caused many a cautious step and many a distrustful glance as it graced two wooden boxes in the basement of the City Building.

The two boxes of dynamite were supposed to have been left over from the work at the city sewage disposal plant. Their place in the city building basement was scrupulously avoided and they were given a wide berth on every occasion.

The boxes were revealed recently during a general clean-up of the basement, and city officials endeavored to get prices on the explosives with a view to selling it.

Wednesday City Auditor G. H. Stokes persuaded J. L. Allman, superintendent of the Miami Powder Company at Goes to visit the basement and inspect the dynamite.

The powder man split open the first box and discovered that it contained—bricks. He opened the other box and found that it contained—more bricks. Sample bricks shipped to the city at some time and later packed away in the old dynamite boxes. Now city employees are breathing easier and treading about the place with more firmness than they have in the last two or three years.

## RED SUCCESSES CREATE ALARM AMONG JAPANESE

Washington, Dec. 4.—Successes of the Russian reds against Admiral Kolchak's forces in Siberia have created alarm in Japan, according to advices received here, and a popular movement to strengthen the Japanese forces in Siberia is taking shape. The Tokio government is said to be moving cautiously, however, and to contemplate no change in policy relative to Siberia that is not the outcome of frank consultation with the entente governments and especially with the United States.

Officials of the Japan foreign office have already talked with American ambassador Morris, who has only recently returned to Tokio from a tour of Siberia. There have been no formal exchanges between the two governments, however.

The Japanese view is said to be that the situation in Siberia demands readjustment of the relations of the entente powers, which participated in the original military movement into that country. The purpose of that movement was to aid the Czech-Slovak forces against the pursuing Bolshevik army. Practically that has been accomplished, many thousands of the Czech-Slovak troops having been repatriated via the United States or the Red sea. The remainder are at points on the eastern coast of Siberia, awaiting transportation.

Protection of vast military stores at Vladivostok was another purpose of the Siberian expedition. Most of these stores now have been distributed among Kolchak's forces. A third purpose was the protection of the Siberian railroad, useful only as a link of communication between European Russia and Vladivostok. Now that it has been cut by the Bolsheviks west of Omsk, some Japanese strategists see no further necessity for guarding what is left.

## INCOME TAX BILL BEFORE ASSEMBLY

Columbus, Dec. 4. — Plans of the taxation committee of the legislature are to have the income tax bill, now before the legislature, passed and in effect before Jan. 1. The measure is expected to raise \$8,000,000 a year, of which a fourth is to go to the state and three-fourths to the municipality or township in which the tax originated. One of the main objects of the bill is to provide financial relief for cities.

Exemptions, as now written into the bill, are \$500 for unmarried persons, \$1,000 for married ones, with \$200 additional for each dependent child. The rate proposed is 1 per cent for the first \$4,000 or less, above exemptions, and 2 per cent for all above \$4,000.

The membership of the state tax commission, which is to supervise collection of income taxes, is increased to four in the bill, making the commission bipartisan. One of the members is to look primarily after the income tax.

The graduated auto tax bill is before the house. It is being fought by the automobile clubs. If the act passes and is thrown into the courts for test of constitutionality, machines in Ohio may operate for a while next year on 1919 tags. If the law is sustained, the proposed increased tax will have to be paid, otherwise the present \$5 fee for all machines will continue.

Senator Jones of Meigs announced he expects to introduce a bill substituting a gasoline tax for a license fee. This, he explained, would tax machines and trucks exactly in the proportion in which they use the roads.

# ORGANIZED LABOR AND LAW SET FOR FIGHT TO FINISH BY FEDERAL ACT

MEN AND PLACES IN THE NEWS FROM MEXICO

Above: William G. Jenkins and map showing (1) Puebla, where Jenkins is held a prisoner; (2) Mexico City, capital of the troubled republic; (3) El Paso, where American troops are in readiness to dash across border. Below, left to right: Gen. Alvaro Obregon, Gen. Pablo Gonzales and President Venustiano Carranza.

President Carranza's apparent determination to force the United States to intervene in Mexico by holding prisoner William O. Jenkins.

ins. U. S. consular agent at Puebla, is believed to have resulted from delicate internal conditions in Mexico. The country appears to be on the verge of another revolution.

General Obregon being in charge of forces hostile to the present government. Gen. Pablo Gonzales is in command of the army that remains faithful to Carranza.

## MEXICAN OFFICIAL IS CHARGED WITH BRUTAL ATTACK ON AMERICAN

**Third Outrages Against U. S. Citizen Reported By American Consul—Man May Die as Result of Lack of Medical Attention and Exposure.**

Calixto, Cal., Dec. 4.—The state department was informed today by American consul Boyle of Mexicali, of the third outrage against an American citizen in that place within the last few weeks in connection with the arrest and fearful beating administered to W. K. Milton, former American soldier, by a Mexican police officer, it was announced today.

Milton, 24, is in a serious condition.

## PERSONNEL OF COUNTY HEALTH STAFF UNDER HUGHES LAW IN GREENE COUNTY STILL UNDECIDED

Who will make up the personnel of the county health staff under the Hughes public health law which becomes effective January 1?

The answer to this question is still as much a mystery to the new Greene County Board of Health as it is to the general public.

So far only two doctors who are interested in securing the appointment as county health officer have spoken to Dr. W. H. Finley, president of the board concerning the appointment. Two other men have made application for appointment as dairy and food inspector which office is created by the new health legislation.

Five persons will comprise the health staff in Greene county under the new law. The budget recently made out by the health board to pay expenses of this staff for a year is in the neighborhood of \$9,000. Of this sum the state will pay \$2,000.

In making its budget the new county health board arranged for salaries and expenses which were as economical as the law permits. The staff will consist of a health officer, whose salary was fixed at \$3,000 a year; two nurses, one to receive a salary of \$1,500, the other \$1,200; a

clerk \$900. In addition the county must provide offices for the health officer and his staff, and must furnish an automobile for each of the nurses. The health board set aside \$300 each for upkeep of the nurses' cars, and \$400 for the health officer's expenses in operating his machine, which he must furnish himself.

State health authorities made an effort to prevail upon the health board to appoint three nurses, as it would have been possible for them to do under the law, but the board refused. In Fayette county, which is not so large as Greene, three nurses were provided for. The personnel of the health staff is the least that the board could make it in compliance with the law, which also directs the purchase of automobiles for the nurses and the payment of expenses incurred in running the machines.

Just how the expenses of the new health law will be met the first year is problematical. The county commissioners made the levies for all county purposes for next year last June, and there is no provision made to take care of the expense that will be incurred by the Hughes law. Certificates of indebtedness will prob-

ably be issued to meet the expense.

Under the law the appointment as health officer and chief nurse must be made by the health board from a list certified by the State Civil Service Commission. The doctor who wants to become a health officer must take a civil service examination and obtain his rating. The same is true of the chief nurse. Other health employees will be appointed by the board from its own selection.

The county health board consists of Dr. W. H. Finley, S. M. McKay, of this city, Dr. Trehan of Zimmerman, Attorney Charles Bogle of Yellow Springs, and S. S. Earley of the Wilmington pike.

## TRUCK HITS BUGGY, 2 NARROWLY ESCAPE

S. P. Faulkner and his daughter, Mrs. Minnie Jones, of Paintersville, escaped injury when Bales and Harnes' truck loaded with hogs, backed into and overturned their buggy on West Main street Thursday noon.

The buggy was making a turn, and the occupants were watching a truck approaching from the west. While they had their eyes on that car, the Bales and Harnes truck backed out from the opposite side of the street, where it had been parked, and upset the buggy.

## SERIOUS CRISIS CONFRONTS MEN OF GERMANY

Paris, Dec. 4.—The most serious crisis since the time when the German national assembly met to consider the peace treaty confronted the supreme council today when it convened to approve the final draft of the reply to the German note protesting against extra reparations for the sinking of the interned German war fleet at Scapa Flow.

Assistant Secretary of State Frank L. Polk, of the American delegation and his colleagues who, forty-eight hours ago, were inclined to believe that Germany was bluffing, are now seriously concerned over the positive declaration of Baron Von Lersner that Germany would not sign the ratification protocol in its present shape, but would prefer to revert 'no' only to armistice conditions, but even to a state of war.

The only ray of optimism is that the feeling that Von Lersner perhaps does not represent correctly the attitude of his government or may possibly be engaging in a monumental bluff. One diplomat in commenting upon the latest utterances and activities of Von Lersner, declared he was "acting like a mad man."

## U. S. INJUNCTION PROCEEDINGS AT MINERS STARTS

**Alleged That All Officers Have Conspired to Keep Coal Strike in Force—Must Appear.**

Washington, Dec. 4.—Organized labor and the law are today set for a war to the finish.

The government's action in citing leaders of the United Mine Workers for contempt of court in Indiana has crystallized the determination of labor to fight the present coal crisis out to a finish.

Officials of the A. F. O. L. were today preparing to offer every assistance to the mine workers. Just as determined to fight to a finish is the department of justice, and Attorney General Palmer has behind him the backing of the administration. It is understood that action similar to that taken in Indianapolis may be expected in other places, and that the operators will not escape, if there is evidence that they are attempting to interfere with coal production.

Indianapolis, Dec. 4.—In an effort to end the strike of 400,000 coal miners of the country, the United States government again invoked the power of the federal courts.

Information charging criminal contempt of court was filed in the federal district court here against 84 international and district officers of the United Mine Workers of America, named in the court injunction issued immediately after the strike was called, and capias were issued requiring their appearance to answer the charges. It is alleged that all of the officers have conspired to keep the strike in force and thus have violated the terms of the injunction.

Acting President John L. Lewis, Secretary-Treasurer William Greer, Percy Tettlow, statistician, and Elmer Seales, editor of the United Mine Workers' Journal, the only officials of the organization in Indianapolis, were notified of the action and agreed to report in court to furnish bond, fixed at \$10,000 by Federal Judge A. B. Anderson.

Other officials in the jurisdiction of the federal court here, who include Edward Stuart and William Mitchell of Terre Haute, officials of district No. 11 of the mine workers, will be served as soon as possible, government officials said, and all will be required to appear next Tuesday morning for hearing.

Dan W. Simms of Lafayette, Ind., special district attorney in charge of enforcement of the injunction, said that the proceedings against the miners' representatives will be pushed and that the proceedings to obtain the appearance in court here of officers who reside outside of Indiana will be instituted at once.

Mr. Simms announced that proceedings against officers of two local unions at Clinton, Ind., also would be instituted very soon, charging them specifically with violations of the injunction by payment of strike benefits to miners. Local No. 2011, he declared, had paid benefits by check, attempting to "camouflage" the real nature of the action by stating that they were for overpayment of dues. Local No. 39, he said, drew one check for \$800 and distributed currency among its members.

Mr. Simms said that the citations against the men named were only a start in the prosecutions against alleged violators of the injunction and that further action might be expected soon.

## NEW FINANCE MEMBER.

Columbus, O., Dec. 3.—Senator Thomas W. Jones, of Meigs county, has been named a member of the senate finance committee to succeed the late Henry W. Davis, of Youngstown. Senator Ritter, of Miami county, was named chairman of the committee.

FRENCH PRESIDENT HONORED BY CITY DURING VISIT TO GLASGOW.

President Poincare honored by Glasgow

President Poincare, of France, during his recent visit to Glasgow, Scotland, was honored by being installed as Lord Rector, of the Glasgow university. President Poincare is here shown leaving the University Hall wearing the robes of his honorary office.

**BLEAK AND BARREN COUNTRY**

Montenegro Surely Seems a Fitting Cradle for the Bold and Warlike Race Living There.

From Podgoritzta we retraced our steps to Riyeka, on the uppermost arm of Lake Scutari, and then followed the road up the bold face of a mountain, with splendid views back over the lake, writes William Warfield in the Century. Before we reached the path over which our road was leading we were in several inches of snow, for March was only half over. Even here in this seemingly inhospitable region is a scattered village, with a few terraced fields, looking down toward Scutari, whence the ancestors of the builders were driven to take refuge in the hills. The view here is broader than any other I have yet described. From snow-covered heights one looks to right and left over serrated ranks of peaks, cold in their icy garb. Directly in front there is a bold sweep of snowless hills, warm by comparison despite the barren boulder-strewn slopes, and beyond lies a lake, violet in the far distance.

Once over the pass there is a drop of only a few hundred feet to Cetinje, which lies 2,000 feet above the lake. It is in another flat-bottomed basin, irregularly walled by a steep slope, the center of Montenegrin resistance to the Turk for five centuries, occasionally taken, but never held for long. Here the deposed Nicholas had his palace and was surrounded by the politicians of his little state. It is more pretentious as a town than Podgoritzta and wealthier as a community.

The palace is uninteresting, but the monastery, over against the mountain, is a fascinating place. It is the Vatican of Montenegro, the seat of the metropolitan, the orthodox archbishop who rules this little flock.

**Etiquette of Walking.**  
When in the street, especially in daytime, a lady is not supposed to take a gentleman's arm, unless she is infirm or elderly, though she may properly do so at night. When walking with two ladies a gentleman may walk on the outside, or the inside, or, rather, the side from which he can best guard his companion or companions from obstacles or danger. It is not good form to take a lady's arm, unless to assist her in some way.

**PENN STATE STAR SHINES IN VICTORY OVER PITT UNIVERSITY.**

Bob Higgins.

Bob Higgins, former Peddie Prep School star, whose spectacular plays in the victory of Penn State over the University of Pittsburgh on Thanksgiving Day, were the features of the game. Higgins who was an all-American end in the A. E. F., was playing his last game for Bezdek's eleven and he gave the best exhibition in his career. The victory of Bezdek's eleven was the first they scored over the Pitt Panthers since 1912. The score was 20 to 0.

**THE FLAVOR LASTS SO DOES THE PRICE!**

**\$7 A PAIR SHOE INCREASE  
INDICATED FOR NEXT  
YEAR.**

Despite investigations of the shoe industry by federal and state governments, and despite earlier promises of leading manufacturers that the upper level in shoe prices had been reached, the business is confronted by conditions today that indicate almost sensational increases in prices next year. Eastern manufacturers are taking orders today at \$3 over and above the price for which they have just made deliveries, which sets that advance as a base for the spring market, and the stock for next fall is being made at \$5 to \$7 per pair higher than present figures. The general public will have a practical demonstration of the new costs next spring.

Eastern manufacturers are simply unable to cope with the situation. They cannot get the leather and they cannot make the shoes that the market calls for. Their production has fallen off 50 per cent, without as yet causing a shortage of shoes on the market.

One of the largest houses in Boston has resorted to the rather unusual expedient of going outside the eastern zone and patronizing the western manufacturers. It has placed a heavy order for one of the medium grade shoes made in St. Louis. The buyer finds that the western manufacturers, perhaps less hampered, are operating on a broader gauge than the eastern plants.

Boston is even going to England to get shoes. An order for \$10,000 worth of shoes, of the brogue type, has been placed with a manufacturer in England this week, and the price which the Boston house pays is \$2 to \$3 per pair less than it would have to pay for the shoes at home.

England is in a position to place her goods here at that price because she bought 30,000,000 feet of leather in America last June at sixty to eighty cents a foot, which forced the price of the same leather up to \$1 at home, and then to \$1.20, and it has since gone up to \$1.50.

**THE DIVORCE SCANDAL.**

Chicago has a record of six thousand divorces during the past year. Wisconsin reports an increase of 35% in divorces granted in the first six months of this year. One district in Nebraska has been compelled to assign an additional judge to the hearing of divorce cases because of the unusual rush of that kind of court business. In Iowa, one divorce for every three marriages has been estimated. Reports from other parts of the country might be cited to show similar conditions.

We stick to our oft repeated remedy for cuff love. Have a law requiring all who propose marriage to have the bans for same published or proclaimed in some regular church for two weeks before marriage—as is required by the Catholic church. This would interdict the running off to Kentucky for marriage of thousands of fool Ohio boys and girls. Half the time they do it as a joke—many in haste, to repent at leisure.

If we had had such a ban law much anguish would have been spared some parents in our own community in the last ten years, and the divorce court would have been spared a lot of trouble.

The marriage relation is too holy and honorable a kinship to be made a plaything of. It is the strictest tie of friendship, the holiest expression of love—a delicate flower which will not bear the slightest touch of unkindness. Hence how important that

WILLIAM E. (PUSSYFOOT) JOHNSON.

William E. (Pussyfoot) Johnson, American prohibition worker in London, who was roughly handled by a crowd of students November 13th, during a prohibition speech and paraded through the streets of London. Prohibition does not seem popular in Morrie England where several thousand barrels of Rum have just been released from war restrictions for public consumption.

lovers should fully understand the true nature of each other before proposing to become man and wife.

The sanctity of marriage and the family relation make the corner-stone of civilization. They merit our most sincere consideration.

**Heat Bursts Gravel.**

The bureau of standards has found that if the concrete is made with gravel, particularly siliceous gravel, there is a tendency for the stones to burst in extreme heat, which disintegrates the concrete. Accordingly it is recommended that gravel be avoided wherever possible, but if impossible the gravel concrete may be protected from extreme heat by coating it with an inch of cement, held in place by a wire mesh. Plasters may also be used in which asbestos is the principal constituent.

**GIVES GRIZZLY HIGHEST RANK**

Writer Deplores General Idea That the Animal is of Coarse and Crude Temperament.

A grizzly has supersensitive ears, and loud, harsh sounds give his nerves a harrowing shock. Through his higher development the grizzly probably suffers more intensely and enjoys more fully than other animals. The clashing city noises must be a never-ending irritation and torture to a bear who has been sentenced to end his days in a riotous environment. How he must yearn for the hush of the wilderness! And, as his sense of smell is also amazingly developed, perhaps he longs for a whiff of pine-scented air and the wild, exquisite perfume of the violets.

Experience in many zoos had shown that subjecting caged grizzlies to close

contact with people is usually cruelty to animals. Often they become cross, and a number of crowd-worried grizzlies have died prematurely from resultant apoplexy. Modern zoo bear pens are constructed so that the bear is beyond the wiles of visitors—so that he can have much privacy—one of the needs of any grizzly. Perhaps we too often think of the bulky grizzly as being coarse and crude. But he is an animal of the highest type, sensitive, independent and retiring. The normal bear is good tempered and cheerful.—Enos A. Mills in "The Grizzly. Our Greatest Wild Animal."

**Next Morning the Leaves Had Two.**

A baker of raisin bread whose product got shyer and shyer or raisins one day received this sarcastic letter: "Herewith I hasten to return a raisin which I found in a loaf bought on your premises this morning. Trusting that you have not been inconvenienced in any way by its temporary loss, I remain, etc."

TROOPS IN READINESS FOR ANOTHER DASH INTO MEXICO

U. S. troops in Mexico at the time of Pershing's punitive expedition.

Relations between Mexico and the United States are strained almost to the breaking point and many thousands of United States regular troops are stationed along the border in instant readiness for the dash across the international boundary line, should this move be ordered from Washington.

HIGH SCHOOL TO LOSE TEN FOOT BALL MEN THROUGH GRADUATION

Probably the biggest difficulty a High School athletic coach has to contend with is the training of new men every year.

It is rare that High School students "make the teams" before they are Seniors, or at least until their third year, and about the time they are at the climax of their High School athletic career they are snatched off by graduation.

This was what Coach V. L. Faires of Central High School, had to contend with when he organized his foot ball squad this year, nine of last year's athletes leaving last June. Captain Riddell, who was a veteran tackle and Beals, a veteran guard, were all that were left, and the local mentor thought that he was having difficulties at the start of the season.

Yet the same state of affairs will face the coach next fall, for ten of the lads who won their letters on this year's eleven have played their last game with the blue and white. These lads are Captain Riddell, Bales, Knee, Holland, Walker Taylor, Willard Taylor, Pillsbury, Mendenhall, Sayre and Richards. Boxwell, who played a stellar game in the backfield during the latter part of the season, and who is a Sophomore, and LeSourd,

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure a grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Liniment. Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Liniment" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Liniment" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 30 cent bottle of old-time, honest "St. Jacobs Liniment" from an drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

DRINK ONLY WHEN THIRSTY

Physician Decries Having Any Set Time for the Taking of Liquid into the System.

No rules for water drinking can be laid down, but the best guide is the thirst of the individual, according to Dr. John C. Hemmeter of Baltimore, in an address at a meeting of the American Therapeutic association.

Our bodies have a reservoir in which much water is stored; this is in the tissues underlying the skin and in the muscles. The blood and lymph contain about three and a half quarts of water. In the course of a day about two quarts of gastric juice, from one and a half to two quarts of saliva,

who received a broken collar bone and was forced to retire late in the season, will be back next year. LeSourd is a junior.

Hyman, Flynn and others who substituted on the squad, will be lost by graduation, while Cowan, McCoy, Crow and one or two others are the substitutes who with Boxwell and LeSourd will form the nucleus of next year's squad.

Washington C. H., which turned out a crack team this year, although playing rather an easy schedule, will also lose ten men by graduation. Several of the Payette county lads were playing their third year on the team and several of them also were playing after serving in France for a time. The team won every game it played, ran up large scores and was rarely scored upon.

ATTRACTED BY "GOLDEN BED"

Marquesas Islanders Fascinated by Sight of Article of Furniture New to Them.

An amusing tale is told of the coming of the first brass bed to Atuona. Atuona is one of the Marquesas islands, a place of coconut palms, and people who are still ornamentally tattooed and who used to be cannibals before the missionaries arrived and taught them better. But no missionary had ever disembarked a brass bed on the beach of Atuona; it came with the luggage of a curious traveler who had seen the island from the deck of a steamer, and felt an impulse to live there a while and see what it was like. He could not depart, he says, "without penetrating into those abrupt and melancholy depths of forest, without endeavoring, though ever so feebly, to stir the cold brew of legend and tale, fast disappearing under stupor and forgetfulness." And so one day the boat brought him ashore, and the populace welcomed him, marveling at the sight of the "golden bed" and nearly overcome with delight at the elasticity of the springs under the mattress. They took turns bouncing on it, while he drove an easy bargain with the possessor of a house for the use of that domicile in return for leaving the "golden bed" with the owner when he departed. Then, the bargain concluded, the wife of the chief who owned the house had the unique privilege of sitting on the bed, happily bouncing up and down, till it was lifted on the tattooed shoulders of four Marquesans and marched with honor to its destination.

one and a half quarts of pancreatic juice, and intestinal juices in quantities that have been estimated variously at between two and eight quarts, are secreted. Thus a man secretes altogether about eight quarts of digestive juices every day; yet he has only from three to four quarts of blood and lymph.

The mystery of whence the water comes and whither it goes is solved when we learn that the reservoirs under the skin supply it and reabsorb it. When we are thirsty it means that the supply in the reservoirs is running low. Perspiration disposes of much of this water, and by evaporation keeps the body cool. Physical work or exercise produces much heat and if a man who performs it cannot perspire his temperature goes up rapidly.

Family Secrets. "What a beautiful mamma you've got," said a guest to his hostess' little daughter. "Yes, when there's a party," replied the infant terrible.—Boston Transcript.

WOMAN LEGISLATOR TAKES U. S. IDEAS TO CZECHO-SLOVAKIA

Reap Additional Profits by Spreading Straw.

Why waste your most valuable by-product?

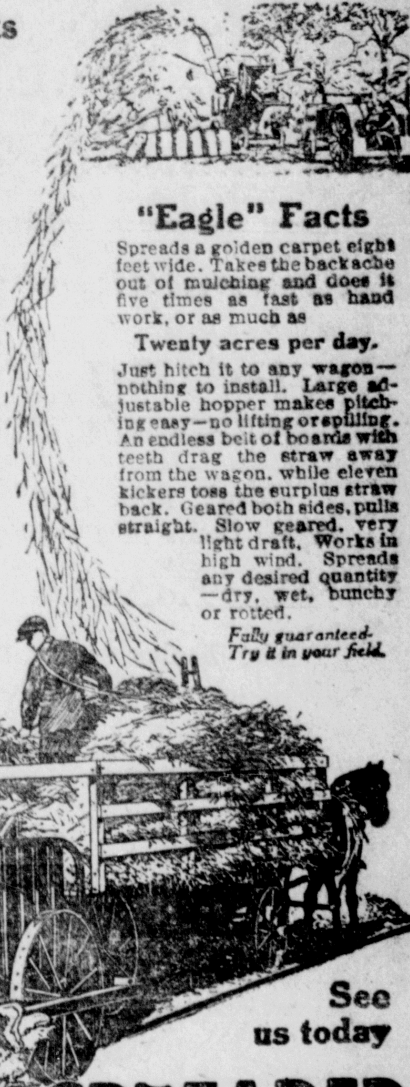

Every ton of straw is worth \$2.00 to \$5.00 per ton as fertilizer alone. Besides that, it protects your crops against winter-kill and drouth—your best guarantee of big yields.

It's a soil mellow, a valuable source of humus and a reservoir of moisture. It prevents soil-blowing and "patchy" spots—holds a protecting blanket of snow on wheat.

Experimental stations and practical farmers prove that straw spread with the "Eagle" will not

\$5.00 to \$25.00 more per acre per year.

Sales increased fourfold in last two years. This is the best proof of its merits. Let us show you what the "Eagle" will do. Call today.

"Eagle" Facts

Spreads a golden carpet eight feet wide. Takes the backache out of mucking and does it five times as fast as hand work, or as much as

Twenty acres per day. Just hitch it to any wagon—nothing to install. Large adjustable hopper makes pitching easy—no lifting or pulling. An endless belt of boards with teeth drag the straw away from the wagon, while eleven kickers toss the surplus straw back. Geared both sides, pulls straight. Slow geared, very light draft. Works in high wind. Spreads any desired quantity—dry, wet, bunched or rotted.

Fully guaranteed. Try it in your field.

## CO. ATHLETIC ASSN. IS FORMED TO PROTECT INTERESTS OF PLAYERS

A County Athletic Association to make athletics more uniform and to provide a means by which disputes could be settled, has been formed in Greene County.

A committee of five will be appointed each year by the county superintendent of schools and they will settle all disputes that may occur. The decision of this committee will be final and athletic relations will be broken with any school not abiding by them.

The rules and regulations regarding athletics in the county are very similar in many respects to those of the Ohio Athletic Association.

The County Superintendent has appointed the following as members of the Greene County Athletic Committee for the season of 1919-1920: E. J. Arnold, Jamestown, chairman; Harold M. Little, Yellow Springs; L. D. Parker, Cedarville; V. I. Fairies, Xenia; William R. Collins, Jamestown. The rules and regulations governing athletics in Greene County are as follows:

#### Eligibility

1. No pupil may take part in inter-high school athletics unless:
  - a. He has a passing grade in all subjects. (Passing grade is uniform all over the county.)
  - b. He has the approval of the head of the school. (School head may, for unsportsmanlike conduct or any other reason prohibit a player from taking part in any contest.)
  - c. He is physically fit.
2. No high school pupil who has reached the age of twenty-one shall be eligible to represent his school.
3. High school pupils shall abstain from the use of tobacco. (Penalty, ineligibility.)
4. High school pupils shall not use profanity. (Penalty, suspension from team.)
5. No pupil who is a graduate of a four-year secondary school course is eligible to represent the school.
6. Only pupils taking the full course shall be eligible to represent the school.
7. Any boy who has played on a college team is not eligible to represent a high school.
8. Any high school pupil known to have bet or acted as agent in betting shall be debarred from competition for one year.

#### Contests

1. All contests must be scheduled for the end of the week if possible.
2. The schedule of games must be approved by the head of the school.
3. Eligible lists of not to exceed 10 players must be interchanged by contesting schools not less than 24 hours before the game. This list shall be certified by the head of the schools.
4. Each team shall bear its own transportation expenses.
5. Each team shall be accompanied by some member of its faculty.
6. Teams cancelling games with out sufficient reason shall be penalized.
7. Teams playing in Greene county must conform with these regulations.
8. A complaint and mutual Referee shall be furnished by the home team.

#### Athletic Courtesy

1. Rules of the games are to be regarded as mutual agreements, the spirit or letter of which one should not sooner try to evade or break than one would any other agreement between gentlemen.
2. Visiting teams are to be honored guests of the home team and all their mutual relationships are to be governed by the spirit which is understood to guide in such relationship.
3. No action is to be taken nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to ones opponents or to the public.
4. No advantages are to be sought over others except those in which the game is understood to show superiority.
5. Officials and opponents are to be regarded and treated as honest in intention. When opponents are evidently not gentlemen and officials manifestly dishonest or incompetent,

## Use Famo Regularly on the Children's Hair

Start early to assure the children healthy scalps by using FAMO on their heads every day.

Playing children can't escape dirt. Dirt stimulates the growth of the sebaceous germ which causes dandruff.

FAMO is actually a medicine. It kills this germ, and keeps the hair and scalp healthy and clean.

It also makes stubborn hair easier to train and gives the hair of both boys and girls a beautiful sheen, of which all mothers are proud.

The child who uses FAMO regularly will never suffer from itchy scalp; and the boy can look forward to manhood without fear of early baldness or gray hair.

FAMO is a wonderful treatment for the hair and scalp, that was developed in one of the old pharmaceutical houses of Detroit.

Not only does it destroy the deadly dandruff bacilli, but it makes the hair soft and luxuriant.

Every member of the family should use FAMO every day—as any good mother would.

FAMO is sold at all good grocery stores, in two sizes—21 and 25 cents.

The larger bottle contains a third more than the average.

It does not give satisfaction, money will be refunded.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrheal excretion forms in scales or flakes and is commonly known as dandruff.

From the laboratories of F. A. Thompson & Company, Manufacturing Pharmacists, Detroit, Michigan.

Sohn's Drug Store

Special Famo Agents,

No. 7 E. Main St. Xenia, Ohio

future relationship may be avoided. 6. Decisions of officials are to be abided by even when they seem unfair.

7. Ungentlemanly or unfair means are not to be used even when they are used by opponents.

8. Good points in others should be appreciated and suitable recognition given.

## CEDARVILLE

### ENTERTAINS CLUB.

The ladies of the Home Culture club and their husbands, were entertained Monday evening, by Mr. and Mrs. Harry Nagley of Xenia.

ADDRESSES COLLEGE STUDENTS. Rev. Bustler, pastor of the Methodist church, gave an address to the students of Cedarville college, in the chapel exercises, Tuesday morning.

The pupils of the Cedarville High School gave a literary program Monday night in the High School auditorium.

### READER IS ENTERTAINING.

times I was utterly miserable, suspicious of every word and action of either my husband, or those whom he appeared to like. I used to thank God my child was a boy, so would not have to suffer as I had done because of jealousy. I held the opinion held by most women, that men never loved in the same way; never cared quite so much as women did. As I grew older I found out I was wrong. But at this time, I thought of men, most men, as rather gay Lotharios, intent upon making themselves agreeable to any pretty women, regardless of others. Rose Kemp had gone back to her husband.

When I read her letter I scarcely grasped its contents, so surprised was I that she had decided to return to him.

"Dear Sandra: You will be surprised to know that I have gone back to Walter, she commenced her letter, 'I found I could not be happy away from him. Had I been, I never should have gone back because he has changed in no slightest particular. But as I was unhappy away from him even more so than with him, I have concluded to stay as long as he will have me.'

"You see, Sandra, I constantly visualized him as with some other woman; planning to divorce me. It may be that I can at least put off that day by being with him. I shall keep him as best I can, and shall try not to find fault, no matter what he does—I did at first, you know. He is the sort of man who will not endure to be criticised. I will never complain or make things unpleasant when he is around. Perhaps I may at least win him to the extent that he will not be so anxious to be free.

"Never cease to be thankful, Sandra, that you have a husband who does not run after other women. That is putting it baldly, but why should I try to hide things from you? I know you had to play second fiddle, but what is that when the other woman is dead and gone, to playing second, third or fourth as I am doing? As I have done ever since I married Walter."

"I never shall leave him again. If things become too hard to bear, I shall end it all. Life without him, without at least the pretense of his affection, isn't worth living for me. It is strange isn't it, Sandra, how we women give ourselves, body and soul, to the man we love? While with them there is always something withheld. 'I would ask you to visit me, but I do not want even you to see the way I am neglected; what I have to bear. I have pride enough left for that; even if I have none where it is' between Walter and me.

"Write me occasionally, and send me a picture of your boy."

"Love, Rose."

I cried bitterly over Rose's letter. It was so utterly hopeless. Then I showed it to Everett.

"Do you suppose she really would do what she threatens?" I asked fearfully.

"I hardly think so—yet she might. Your friend is a very temperamental woman. She is willful, and her unfortunate marriage seems to have made her very dependent. Don't think about her any more than you can help. You can do her no good, and it will only make you unhappy."

He had made no mention of the paragraph in which Rose had spoken of me as playing "second fiddle." I had forgotten all about it when I let him read the letter. I wouldn't have had him see what she had said for a good deal. And I was thankful and grateful that he did not mention it.

I answered the letter at once, and sent her a picture of Junior, a lovely one we had just taken of him. I also sent her a book I had just read and which I had enjoyed hugely. Her reply, just a short note, was full of gratitude.

"Junior's picture is on my dressing table. I call him my 'little sweetheart,' she said at the close 'She has no other,' I thought pityingly. Tomorrow—Sandra Realizes That She Has Developed.

Lace-Making in China.

Foreign missionaries in Chefoo, Shanghai, Poochow, Amoy and Swatow have introduced lace making among the Chinese women, and considerable lace has been exported from time to time. Silk, linen and cotton thread are used in Chefoo, and linen and cotton in the other places. The lace is made more cheaply than is possible elsewhere because of the low wages paid in China, but a lack of enterprise in changing patterns to meet changing tastes and fashions abroad prevents the industry from assuming larger proportions.

**ENATOR'S CAMPAIGN MANAGER INDICTED**

Paul H. King.

Paul H. King of Detroit, who was manager of the Newberry campaign committee last year, has been indicted by a federal grand jury in Grand Rapids, charged with corruption, fraud and conspiracy in connection with the election by which Mr. Newberry obtained a seat in the United States senate. Judge Sessions, in whose court the indictments were found, indicated that the evidence before the grand jury disclosed the fraudulent expenditure of \$500,000

Truth in Art.

I am afraid the reader must be, by this time, almost tired of hearing about truth. But I cannot help this; the more I have examined the various forms of art, and exercised myself in receiving their differently intended impressions, the more I have found the truthfulness a final test, and the only test of lasting power; and, although our concern in this part of our inquiry is, professedly, with the beauty which blossoms out of truth, still I find myself compelled always to gather it by the stalk, not by the petals. I cannot hold the beauty, nor be sure of it for a moment, but by feeling for that strong stem.—Ruskin.

Have Some Pickled Kelp

An addition to the delicatessen line is pickled kelp, put up in glass bottles. It is not only edible, but really delicious.

GIRLS! A MASS

OF WAVY, GLEAMY BEAUTIFUL HAIR

Let "Danderine" save and glorify your hair

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the Danderine and draw this through your hair taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous, fluffy and so easy to do up. All dust dirt and excessive oil is removed.

Let Danderine put more life, color, vigor and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair, and help your hair to grow long, thick, strong and beautiful.

## Delicate Mothers

Vinol, our Cod Liver and Iron Tonic, is the best remedy for Nervous, Run-Down, Anaemic Conditions.

This Letter Proves It.

Kenton, Del — "I suffered from nervous, run-down condition and no appetite. I kept house and live on a farm so had to keep about my work. I have five in the family. My druggist recommended Vinol as the best medicine for my condition. I felt better after taking the first bottle. It has given me a good appetite, I sleep better and feel stronger in every way." — Mrs. J. HERMAN WILDS.

It is the Beef and Cod Liver Peptones contained in Vinol aided by Iron and Hypophosphites which makes it such a famous blood-maker, nerve builder and strength creator. Besides Vinol is not a secret medicine. Its full formula is printed on each package.

## SNIFLES, SNEEZES, HOARSE WHEEZES

Banish them by using Dr. Bell's Pine-Tar-Honey

THOUSANDS recommend it. Dr. Bell's Pine-Tar-Honey isn't an experiment, but a cough and cold remedy that has steadily grown popular because it is quickly effective. For lingering colds or coughs or fresh attacks of influenza and healing antiseptics are sure to be beneficial. It brings speedy relief from phlegm-congestion, inflammation, tickling bronchial tubes. Good also for hoarseness, coughs due to gripple, and kindred ailments. Economical—a bottle goes a long way. 30c, 60c, \$1.20.

A Fine Family Laxative

Pod-Lax, Nature's proved a laxative, since the bile and gets the liver on the job. Unlike alcohol, it does not excite and has no habit-forming action. It promptly converts constipation in young or old, male or female.

## TRY THIS PLEASANT AND EFFECTIVE HOME REMEDY FOR COUGHS AND COLDS

IT WORKS LIKE MAGIC AND COSTS BUT LITTLE TO PREPARE.

If you want a cough medicine that is surely fine for coughs, colds, hoarseness, bronchial affections, croup and throat irritations, get 3 oz. of Glando Pine (50 cts. worth) with full directions for preparing and you can make a full pint of excellent cough medicine. Glando Pine gets right at the cause of the cough. The first dose relieves, it opens the air cells and makes you breathe easy. Children love to take it. When prepared according to directions it will not separate as some of the inferior cough medicines do.

George Pollock, a painter and decorator, of Logansport, Ind., says, "I took a severe cold which settled all through my system. I had severe pains in my chest and lungs. My throat was swollen and sore. Glando Pine gave me relief almost instantly. I consider it very fine for coughs and colds."

Mrs. John Polter of 359 S. Williams St., Paulding, Ohio, said, "I neglected to doctor a cold which settled on my lungs. My cold grew worse until I coughed almost constantly, I began to spit blood. I lost in weight and looked so bad that people thought I had tuberculosis. I finally tried Glando Pine. The first bottle helped me. I continued its use until I was cured. I firmly believe that Glando Pine saved my life."

To avoid disappointment be sure you get Glando Pine. Once you have used it you will never want to be without it in your home.

Manufactured only by the Gland-Aid Co., Paulding, Ohio.

**SUFFERED TEN YEARS FROM INDIGESTION**

Trouble Gone, Appetite Strong, and Eats Anything Without Distress.

"I had a case of catarrh and indigestion, of ten years standing. I had been treated by the best medical men in Michigan. When I commenced taking Milk's Emulsion, I was in bed. I improved so fast that I kept the neighbors wondering. I am now up and working every day. My cough is gone. My appetite is great, and I can eat anything without hurting me." —H. D. Lovelace, Rockford, Mich.

Indigestion is seldom cured by "helping" the stomach digest food. Digestives, like physic pills, usually make slaves of the stomach and bowels. Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physic. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in resisting and repelling the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day. It produces remarkable results in colds, coughs and bronchial asthma.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children. No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

**"Bringing Up Father"**

**The High Cost of Loving**

By SAIDEE ESTELLE COBB

(Copyright, 1918, by the Western Newspaper Union.)

"What's the answer?" challenged Bob Dacre, as he met his friend Earl Foster coming out of a pawn shop. The questioner was naturally amused, for Foster was the heir presumptive of John Baird, a very wealthy man who was more than liberal with the only living relative he seemed to care for.

"Oh, I was just getting rid of some superfluous gewgaws," declared Earl lightly.

"High cost of living?"

"No, the high cost of loving," corrected Earl, with a slight laugh. "Of course you know who that harks back to."

"Miss Rhoda Foster, of course."

"You have it right, Bob. Mind you, I am not charging that sweetest of earth's sweet creatures with encouraging any extravagance on my part, but that self-centered uncle of mine has allowed me the choice of giving up Rhoda or his fortune."

"With the result?"

"That I am going to work out my destiny along new lines. I, of course, took a manly, independent course and I hope Rhoda will sustain me in it. I thanked Uncle John for all his past consideration, walked out of the house and have just financed myself for an initial struggle with the cold, hard world."

"But Rhoda?"

"I have written her that when I can prove to myself that I can earn my own living, we shall resume our engagement. I hope and believe she will be true blue."

"So much so," replied Dacre, with a spice of indignation, "that if you leave her without saying what you have written it looks like the basest desertion!"

But Earl had his own ideas, and disdained counsel. He swelled up rather proudly as he remarked:

"I've borrowed enough to give me a farm outfit, and it's overalls and early rising from now on. Fortunately I met an old farmer, Rufus Dayton of Warrenton. He offers me a kind of managerial position on his farm. I leave tonight for the rustic grind and I mean to make a success of it."

Which Earl seemed to have done by the end of a month. If he missed the elegant leisure of luxury he gave no sign of it. He made friends with everybody about the place. He became interested in farming as a science, and sat up in his room nights and pored over books dealing with intensive methods of cultivation and the like.

It was well onto the second month of his apprenticeship when one evening, as he chanced to look up from the book he was perusing, through the open window about 50 feet away, half screened by some shrubbery, he made out an unfamiliar figure. He discerned that it was that of a woman, judging from her garb, and although he could not distinguish the features he was sure that her eyes were fixed up on the lighted room in which he sat. The figure vanished and he thought no more of it until two evenings later, when the same appearance was manifested.

For fully half an hour Earl lingered in his covert. He was about to abandon his vigil when the swish of light garments swept the grass and a graceful, girlish form stood silhouetted against the streaming light from the window. Its pose was that of a person closely observing a certain point of interest, his room. Thither the fixed glance of the intruder was vividly fixed, there could be no mistake as to that, and Earl marvelled, crept nearer, suddenly reached out and plucked the two arms of the mysterious visitor from behind, with the sharp challenge.

"What are you doing here?"

There was a fluttering feminine shriek as the intruder faced about. Earl's hands felt to his side, he fairly reeled with amazement.

"Rhoda!" he cried.

"Oh, Earl, I had to do it!" wailed the loved one. "I have not seen you for weeks," and then as she tottered he steadied her in his arms, and kept her there. She was sobbing hysterically, but she clung to him in a fervor of joy.

"I have just spoiled all," whimpered Rhoda. "And Uncle John will scold me terribly because both of us were to come to the farm tomorrow and explain."

"Uncle John, explain," uttered the bewildered Earl.

"Yes," spoke Rhoda, "you see, we have been staying at the Walden place for a week. Uncle John came to me as soon as you went away and told me how to try you out. He was going to pretend you must give me up. Then, if you still insisted you would never cease to love me, that would prove you was worth having for a husband. And if you went to work it would show you was the right sort. And he is so delighted at the splendid way you have made good, and I am so proud of you that, if it pleases you, he will buy us the best farm in the district."

"A pair of merciless plotters," railed Earl. "How dare you look me in the face after such a confession?"

"I won't," answered Rhoda meekly, and nestled her pretty head close up on Earl's shoulder.

Man vs. Shellfish.

If a human being possessed strength as great in proportion to his size as that of the shellfish the average man would be able to lift the enormous weight of 2,076,000 pounds by pulling in the same degree as a limpet. And if the man pulled in the same degree as the cockle he would sustain a weight of no less than 3,000,000 pounds.

GOOD HOUSEKEEPERS USE BEST That is why they use Red Cross Ball Blue. All leading grocers, 5 cents.

### LOADED REVOLVER CAUSES LAD'S DEATH

News of the accidental shooting of  
her ten year old nephew, John Robin  
Adair, the only son of her brother, J.  
C. Adair, of Donora, Penn., has been  
received by Mrs. J. O. C. McCracken.  
The lad was playing with a neigh-  
bor child, and the two went into a  
bedroom on the second floor, with  
some balloons. A loaded revolver was  
lying on a dressing table, and  
the boys began examining it. The  
weapon was discharged in the Adair  
bullet passing

through his heart. Cracken who was  
visiting in Pennsylvania at the time  
the accident occurred, attended the  
funeral.

#### A Drop of Water.

If a drop of water could be mag-  
nified to the size of the earth, each of  
its molecules would appear no larger  
than a baseball.

Sold in Xenia by Sayre & Hemphill,  
D. D. Jones and other dealers.

### The Best Cough Syrup is Home-made.

Here's an easy way to save \$2, and  
yet have the best cough remedy

You've probably heard of this well-  
known plan of making cough syrup at  
home. But have you ever used it?  
When you do, you will understand why  
thousands of families, the world over,  
feel that they could hardly keep house  
without it. It's simple and cheap, but  
the way it takes hold of a cough will  
quickly earn it a permanent place in  
your home.

Into a pint bottle, pour 2 1/2 ounces of  
Pinex; then add plain granulated sugar  
syrup to fill up the pint. Or, if desired,  
use clarified molasses, honey, or corn  
syrup instead of sugar syrup. Either  
way, it tastes good, cures quick, and  
gives you a full pint of better cough  
remedy than you could buy ready-made  
for three times its cost.

It is really wonderful how quickly  
this home-made remedy conquers a  
cough—usually in 24 hours or less. It  
seems to penetrate through every air  
passage, loosens a dry, hoarse or tight  
cough, lifts the phlegm, heals the mem-  
branes, and gives almost immediate re-  
lief. Splendid for throat tickle, hoarse-  
ness, croup, bronchitis and bronchial  
asthma.

Pinex is a highly concentrated com-  
pound of genuine Norway pine extract,  
and has been used for generations for  
throat and chest ailments.  
To avoid disappointment, ask your  
druggist for 2 1/2 ounces of Pinex with  
directions, and don't accept anything  
else. Guaranteed to give absolute satis-  
faction or money refunded. The Pinex  
Co., Ft. Wayne, Ind.

### RHEUMATISM LEAVES YOU FOREVER

Deep Seated Eric Acid Deposits Are  
Dissolved and the Rheumatic Poison  
Starts to Leave the System Within  
Twenty-four Hours.

Every druggist in this county is au-  
thorized to say to every rheumatic  
sufferer in this vicinity that if two  
bottles of Allenru, the sure conquer-  
er of rheumatism, does not stop all  
agony, reduce swollen joints and do  
away with even the slightest twinge  
of rheumatic pain, he will gladly re-  
turn your money without comment.

Allenru has been tried and tested  
for years, and really marvelous re-  
sults have been accomplished in the  
most severe cases where the suffering  
and agony was intense and pitiable  
and where the patient was helpless.

Allenru relieves at once, imme-  
diately after you start it the good  
work begins. It searches out the uric  
acid deposits, dissolves the secretions  
and drives rheumatic poison out of  
the body through the kidneys and  
bowels.

It's marvelous how quickly it acts.  
Blessed relief often comes in two days,  
and even in cases where the suffering  
is most painful all traces disappear  
in a few days.

Mr. James H. Altan, the discoverer  
of Allenru, who for many years suf-  
fered the torments of acute rheuma-  
tism, desires all sufferers to know that  
he does not want a cent of anyone's  
money unless Allenru decisively con-  
quers this worst of all diseases and he  
has instructed Sayre & Hemphill to  
guarantee it in every instance.

### ARTISTIC GOWN OF SATIN AND BROCADE

The brown satin in this attractive  
afternoon gown serves as a back-  
ground for the lovely gold and brown  
brocade which a wise designer  
draped in straight lines. The new  
short sleeves add a smart touch and  
the brown silk hose and gold bro-  
cade slippers carry out the color  
scheme of the frock.

### DOGS KILL 275 SHEEP DURING YEAR IN COUNTY

Two hundred and seventy sheep and  
four hogs were killed or injured by  
dogs during the year. The county  
commissioners yesterday allowed to  
their owners \$3,288.70 on claims for  
their destruction. The commissioners  
fixed a valuation of \$2,508.60 on 182  
animals that were killed, and the 92  
injured were valued at \$676.80. Wit-  
nesses called in order to all in de-  
termination of value of the animals  
were paid \$103.30.

Formerly claims were paid only for  
sheep killed or injured by dogs, but  
by a new law, owners of any other  
animals attacked and injured or killed  
by canines can receive compensa-  
tion from the county. Ray Gerard  
presented the only claim on animals  
other than sheep. He was allowed  
\$59.60 for two hogs killed and two in-  
jured.

Because it was feared that there  
would not be enough money in the  
fund to pay the claims in full, the  
commissioners did not allow the com-  
pensation last June at the quarterly  
meeting, but postponed that duty un-  
til December, in order that all claims  
might be prorated the same. There  
was enough money in the fund how-  
ever to pay the claimants in full the  
amounts they were allowed by the  
commissioners. The fund to pay  
claims for animals, is provided by  
the dog taxes.

### READY TO FIGHT LIFE'S BATTLES

The men and women who win life's  
battles are physically and mentally  
right. They take care of themselves  
and make sure that their blood is  
charged with life-giving iron and their  
nerves fed with phosphates.

The foremost doctors all over the  
world are depending more and more  
on iron and phosphates to rebuild  
run-down, overworked men and wo-  
men, old before their time.

They claim that the healthy, strong,  
successful men and happy, easy-  
cheeked women always have an abun-  
dant of Phosphated Iron in their  
blood; that it is the secret of good  
health.

Every man and woman can be made  
strong, keen, healthy and alert, en-  
joying life's pleasures, if they will re-  
new their blood with iron and phos-  
phates.

Phosphated Iron makes new, rich,  
red blood, strengthens the nerves, and  
often increases the strength and vi-  
tality of its users 100 per cent. Thou-  
sands of men and women "all in" and  
worn out have experienced a most as-  
tonishing increase of strength and  
endurance in a very short time by  
simply taking Phosphated Iron.

Phosphated Iron is put up in cap-  
sules only. Do not take inferior pills  
or tablets. Ask for Phosphated Iron  
Capsules. For sale by Sohn's Drug  
Store; and leading Druggists every-  
where.

### DIES FOLLOWING SHORT SICKNESS

Following a short illness, Mrs.  
Katherine Strickie Foss, 81, died  
yesterday at the home of her sister,  
Mrs. W. D. Bickman, 117 West  
Monument Avenue, Dayton.

Mrs. Foss was born at Wilming-  
ton, O., where she resided the  
greater part of her life. She was  
the daughter of Abraham Strickie.

While a young girl, she married  
the late Rodney Foss, a prominent  
lawyer and who was private secre-  
tary to Rutherford B. Hayes, when  
he was governor of Ohio.

The deceased is survived by four  
sisters, Mrs. J. C. Deuell, Mrs. J.  
W. Clous, Mrs. W. D. Bickman and  
Miss Rebecca Strickie. Short ser-  
vices will be held at the residence on  
Monument avenue and the remains  
will be taken to Wilmington where  
funeral services will be held at the  
Presbyterian church there, followed  
by burial in the Wilmington ceme-  
tery. Pending the arrival of out-of-  
town relatives, the day of the fune-  
ral has not been decided upon.

GOOD HOUSEKEEPERS USE BEST  
That is why they use Red Cross Ball  
Blue. All leading grocers, 5 cents.

### CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How How to Get Quick  
Relief from Head-Colds.  
It's Splendid!

In one minute your clogged nostrils  
will open, the air passages of your  
head will clear and you can breathe  
freely. No more hawking, snuffling,  
blowing, headache, dryness. No strug-  
gling for breath at night; your cold or  
catarrh will be gone.

Get a small bottle of Ely's Cream  
Balm from your druggist now. Apply  
a little of this fragrant, antiseptic,  
healing cream in your nostrils. It pe-  
netrates through every air passage of  
the head, soothes the inflamed or  
swollen mucous membrane and relief  
comes instantly.

It's just fine. Don't stay stuffed-up  
with a cold or nasty catarrh—Relief  
comes so quickly.

## SHOWDOWN WITH MEXICO EXPECTED; BREAK FEARED

### Senator Fall Offers Resolutions Aiming at Severed Connections With Southern Country Unless Demands Met.

Washington, Dec. 4.—A resolution offered in the senate by Senator Fall, Republican, New Mexico, requests President Wilson to sever diplomatic relations with Mexico.

Senator Fall, as chairman of a subcommittee investigating the Mexican situation, declared evidence had been found which "would astound the world." It also asked that the president withdraw recognition of the Carranza government.

Senator Fall boldly charged that the Mexican embassy, the consulate generals in New York and San Francisco, and the consulates along the border, with the knowledge and consent of President Carranza, had been actively engaged in the spreading of Bolshevik propaganda in the United States. Evidence, it was said, would be forthcoming to bear out the charge. By this resolution, which was sent to the foreign relations committee of the senate for consideration, the whole Mexican problem, admittedly grave in view of refusal of the Carranza administration to release Consul Agent Jenkins from the penitentiary at Puebla, will be put before congress.

The latest note from the state department calling for the immediate release of Jenkins was laid before the Mexican government Monday. Word to this effect has reached the department, but there was no intimation as to when an answer might be expected.

There also was introduced in the senate a resolution by Senator Ashurst, Democrat, Arizona, authorizing the secretary of war to use the nation's forces for protecting its people in their own side of the border. For eight years Senator Ashurst said he had been waiting for the army to protect American rights along the border, and he felt that the time has come for action.

In the house, also, there was a large up of the Mexican situation. Representative Caldwell, Democrat, New York, declaring it was so bad that before many days the country might be at war. Everywhere the impression prevailed that Senator Fall's committee and officials of the state department were in close and thorough accord.

### VILLA HELD CAPTIVE BY HIS OWN ARMY

Juarez, Mexico, Dec. 4.—Francisco Villa has been captured by a force of his own men and is being held for a reward from the Mexican government, according to advices received here by Superintendent Caballero of the Chihuahua division of the National Railways of Mexico.

Two Villa rebels are reported to have presented themselves at the federal headquarters at Parral and notified the commander there that Villa had been captured and was being held for surrender to the Carranza forces. The state of Chihuahua has already offered \$50,000 pesos as reward.

Mexican officials here expressed the opinion that General Monzalvo Desobor, commander of the Juarez district, would proceed immediately to Chihuahua City for a conference with military officials.

Although the advices received by Caballero gave no details of the incident, it is known that a detachment of federal forces has been sent from Parral to the place indicated by the two Villa rebels.

### CINCINNATI TRYS FOR NEXT MEETING

Cleveland, O., Dec. 4.—Round table discussion of trade problems and addresses by leaders of the automobile industry featured the second day of the third annual convention of the Ohio Automobile Trade Association, close to 1,800 auto salesmen are attending the sessions.

Headed by three bands, a delegation of 300 members of the Summit County Auto Trade Association arrived from Akron today. Large delegations are also here from Canton, Dayton and other cities. Cincinnati is making a hot fight for the next convention.

**SHOPPING DAYS TILL CHRISTMAS**

### SENATOR WHOSE ELECTION IS CALLED INTO QUESTION.

TRUMAN H. NEWBERRY.

Senator Truman H. Newberry, of Michigan, whose election over Henry Ford in November, 1918, has been under inquiry by a Federal Grand Jury at Grand Rapids Mich. It is expected that the Federal Grand Jury will present its report within a day or two. On the face of disputed returns Mr. Newberry won the election by 7,557 votes.

### XENIA MAN FRACTURES HIS SKULL IN FALL

Suffering from what is believed to be a fracture of the skull, the result of a fall when he jumped from a truck in which he was a passenger on the Lower Bellbrook pike at noon Thursday, Vinton Hull, a carpenter is in a critical condition at his home 16 Elm street.

Mr. Hull was employed at the home of J. C. Armentrout on the Lower Bellbrook pike, and was walking home at noon, when a truck driven by John A. North, Xenia plumber, overtook him, and he was invited to ride. He jumped into the back of the car, and told Mr. North that he wished to get off at E. H. Hunt's residence. As they approached the Hunt place, Mr. North began slowing the speed of his car preparatory to stopping it, but without waiting Mr. Hull jumped backward from the car while it was in motion.

He was thrown violently, and the back of his head struck the road. Alton McClain who was standing on the porch of the Hunt residence saw the man fall, and he and Mr. Hunt hurried into Mr. McClain's car and took him home. Mr. North hurried to a telephone to notify his family.

It was at first thought that his injury was chiefly concussion, but later hemorrhages developed.

### PERSHING TO MAKE STOP IN DAYTON

General John Pershing, accompanied by his staff of officers, who will make a tour of inspection to various military posts in the country, and who left Washington last night, will arrive in Dayton at 12:50 o'clock on the morning of December 16, it was announced last night.

The general and his party will occupy two special Pullman cars leaving Cincinnati on the Baltimore and Ohio railroad at 11 o'clock, December 15. The present schedule, according to Theodore Heiland of the B. and O., calls for General Pershing's remaining in Dayton until 3:10 o'clock on the morning of December 16, at which time they will go to Camp Sherman, Chillicothe. From Chillicothe, the party will go to Columbus.

### MISSSES FOOTING IN STAIRWAY PLUNGES DOWN BREAKING ARM

Missing his footing while descending the stairway from his office in the Millen building on Green street late Wednesday afternoon, Magistrate J. E. Jones fell to the bottom of the flight, sustaining a Colles' fracture of the left wrist, and severe sprains and bruises. He is at the Espey Hospital.

Darkness in the stairway was the cause of the accident. Mr. Jones thought he had reached the landing at the turn in the flight, but instead he had one step to go. This caused him to make a misstep and plunge down the stairway. He rolled out on the sidewalk. Passers by gave him assistance, and his daughter, Miss Helen Jones was notified.

### CABINET SUSPENDS ALL JURY TRIALS

London, Dec. 4.—The cabinet has suspended jury trials in all cases of violence in Ireland, substituting three judges to hear all such charges, said a Dublin dispatch to the Daily Express, today.

### "Bricks Is Bricks" In Any Old Box

"Dynamite, handle with care." This portentous label, commanding respect from all who read it, has caused many a cautious step and many a distrustful glance as it graced two wooden boxes in the basement of the City Building.

The two boxes of dynamite were supposed to have been left over from the work at the city sewage disposal plant. Their place in the city building basement was scrupulously avoided and they were given a wide berth on every occasion.

The boxes were revealed recently during a general clean-up of the basement, and city officials endeavored to get prices on the explosives with a view to selling it.

Wednesday City Auditor G. H. Stokes persuaded J. L. Allman, superintendent of the Miami Powder Company at Goes to visit the basement and inspect the dynamite.

The powder man split open the first box and discovered that it contained—bricks. He opened the other box and found that it contained—more bricks. Sample bricks shipped to the city at some time and later packed away in the old dynamite boxes. Now city employees are breathing easier and brooding about the place with more firmness than they have in the last two or three years.

### RED SUCCESSES CREATE ALARM AMONG JAPANESE

Washington, Dec. 4.—Successes of the Russian reds against Admiral Kolchak's forces in Siberia have created alarm in Japan, according to advices received here, and a popular movement to strengthen the Japanese forces in Siberia is taking shape.

The Tokio government is said to be moving cautiously, however, and to contemplate no change in policy relative to Siberia that is not the outcome of frank consultation with the entente governments and especially with the United States.

Officials of the Japan foreign office have already talked with American ambassador Morris, who has only recently returned to Tokio from a tour of Siberia. There have been no formal exchanges between the two governments, however.

The Japanese view is said to be that the situation in Siberia demands readjustment of the relations of the entente powers, which participated in the original military movement into that country. The purpose of that movement was to aid the Czech-Slovak forces against the pursuing Bolshevik army. Practically that has been accomplished, many thousands of the Czech-Slovak troops having been repatriated via the United States or the Red sea. The remainder are at points on the eastern coast of Siberia, awaiting transportation.

Protection of vast military stores at Vladivostok was another purpose of the Siberian expedition. Most of these stores now have been distributed among Kolchak's forces. A third purpose was the protection of the Siberian railroad, useful only as a link of communication between European Russia and Vladivostok. Now that it has been cut by the Bolsheviks west of Omsk, some Japanese strategists see no further necessity for guarding what is left.

### INCOME TAX BILL BEFORE ASSEMBLY

Columbus, Dec. 4.—Plans of the taxation committee of the legislature are to have the income tax bill, now before the legislature, passed and in effect before Jan. 1. The measure is expected to raise \$8,000,000 a year, of which a fourth is to go to the state and three-fourths to the municipality or township in which the tax originated. One of the main objects of the bill is to provide financial relief for cities.

Exemptions, as now written into the bill, are \$500 for unmarried persons, \$1,000 for married ones, with \$200 additional for each dependent child. The rate proposed is 1 per cent for the first \$4,000 or less, above exemptions, and 2 per cent for all above \$4,000.

The membership of the state tax commission, which is to supervise collection of income taxes, is increased to four in the bill, making the commission bipartisan. One of the members is to look primarily after the income tax.

The graduated auto tax bill is before the house. It is being fought by the automobile clubs. If the act passes and is thrown into the courts for test of constitutionality, machines in Ohio may operate for a while next year on 1919 tags. If the law is sustained, the proposed increased tax will have to be paid, otherwise the present \$5 fee for all machines will continue.

Senator Jones of Meigs announced he expects to introduce a bill substituting a gasoline tax for a license fee. This, he explained, would tax machines and trucks exactly in the proportion in which they use the roads.

# ORGANIZED LABOR AND LAW SET FOR FIGHT TO FINISH BY FEDERAL ACT

MEN AND PLACES IN THE NEWS FROM MEXICO

Above: William O. Jenkins and map showing (1) Puebla, where Jenkins is held a prisoner; (2) Mexico City, capital of the troubled republic; (3) El Paso, where American troops are in readiness to dash across border. Below, left to right: Gen. Alvaro Obregon, Gen. Pablo Gonzales and President Venustiano Carranza.

President Carranza's apparent determination to force the United States to intervene in Mexico by holding prisoner William O. Jenkins, U. S. consular agent at Puebla, is believed to have resulted from delicate internal conditions in Mexico. The country appears to be on the verge of another revolution.

General Obregon being in charge of forces hostile to the present government. Gen. Pablo Gonzales is in command of the army that remains faithful to Carranza.

## MEXICAN OFFICIAL IS CHARGED WITH BRUTAL ATTACK ON AMERICAN

Third Outrages Against U. S. Citizen Reported By American Consul—Man May Die as Result of Lack of Medical Attention and Exposure.

Calexico, Cal., Dec. 4.—The state department was informed today by American consul Boyle of Mexicali, of the third outrage against an American citizen in that place within the last few weeks in connection with the arrest and fearful beating administered to W. K. Milton, former American soldier, by a Mexican police officer, it was announced today.

Milton, 24, is in a serious condition.

His removal to Letterman general hospital at San Francisco, where his injuries can be given closer care, is expected as soon as his condition warrants moving him. His jaw is broken, his hand shattered and his head and neck are fearfully cut and frightfully bruised in a dozen places. As the result of the torture inflicted upon him, his voice is gone and there is small hope today that he will recover it.

## PERSONNEL OF COUNTY HEALTH STAFF UNDER HUGHES LAW IN GREENE COUNTY STILL UNDECIDED

Who will make up the personnel of the county health staff under the Hughes public health law which becomes effective January 1? The answer to this question is still as much a mystery to the new Greene County Board of Health as it is to the general public.

So far only two doctors who are interested in securing the appointment as county health officer have spoken to Dr. W. H. Finley, president of the board concerning the appointment. Two other men have made application for appointment as dairy and food inspector which office is created by the new health legislation.

Five persons will comprise the health staff in Greene county under the new law. The budget recently made out by the health board to pay expenses of this staff for a year is in the neighborhood of \$9000. Of this sum the state will pay \$2000.

In making its budget the new county health board arranged for salaries and expenses which were as economical as the law permits. The staff will consist of a health officer, whose salary was fixed at \$3000 a year; two nurses, one to receive a salary of \$1500, the other \$1200; a

clerk \$900. In addition the county must provide offices for the health officer and his staff, and must furnish an automobile for each of the nurses. The health board set aside \$300 each for upkeep of the nurses' cars, and \$400 for the health officer's expenses in operating his machine, which he must furnish himself.

State health authorities made an effort to prevail upon the health board to appoint three nurses, as it would have been possible for them to do under the law, but the board refused. In Fayette county, which is not so large as Greene, three nurses were provided for. The personnel of the health staff is the least that the board could make it in compliance with the law, which also directs the purchase of automobiles for the nurses and the payment of expenses incurred in running the machines.

Just how the expenses of the new health law will be met the first year is problematical. The county commissioners made the levies for all county purposes for next year last June, and there is no provision made to take care of the expense that will be incurred by the Hughes law. Certificates of indebtedness will prob-

ably be issued to meet the expense.

Under the law the appointment as health officer and chief nurse must be made by the health board from a list certified by the State Civil Service Commission. The doctor who wants to become a health officer must take a civil service examination and obtain his rating. The same is true of the chief nurse. Other health employees will be appointed by the board from its own selection.

The county health board consists of Dr. W. H. Finley, S. M. McKay, of this city, Dr. Trehanne of Zimmermann, Attorney Charles Bogle of Yellow Springs, and S. S. Earley of the Wilmington pike.

### TRUCK HITS BUGGY, 2 NARROWLY ESCAPE

S. P. Faulkner and his daughter, Mrs. Minnie Jones, of Paintersville, escaped injury when Bales and Harnes' truck loaded with hogs, backed into and overturned their buggy on West Main street Thursday noon.

The buggy was making a turn, and the occupants were watching a truck approaching from the west. While they had their eyes on that car, the Bales and Harnes truck backed out from the opposite side of the street, where it had been parked, and upset the buggy.

## SERIOUS CRISIS CONFRONTS MEN OF GERMANY

Paris, Dec. 4.—The most serious crisis since the time when the German national assembly met to consider the peace treaty confronted the supreme council today when it convened to approve the final draft of the reply to the German note protesting against extra reparations for the sinking of the interned German war fleet at Scapa Flow.

Assistant Secretary of State Frank L. Polk, of the American delegation and his colleagues who, forty-eight hours ago, were inclined to believe that Germany was bluffing, are now seriously concerned over the positive declaration of Baron Von Lersner that Germany would not sign the ratification protocol in its present shape, but would prefer to revert to no other than armistice conditions, but even to a state of war.

The only ray of optimism is that the feeling that Von Lersner perhaps does not represent correctly the attitude of his government or may possibly be engaging in a monumental bluff. One diplomat in commenting upon the latest utterances and activities of Von Lersner, declared he was "acting like a mad man."

## U. S. INJUNCTION PROCEEDINGS AT MINERS STARTS

Alleged That All Officers Have Conspired to Keep Coal Strike in Force—Must Appear.

Washington, Dec. 4.—Organized labor and the law are today set for a war to the finish.

The government's action in citing leaders of the United Mine Workers for contempt of court in Indiana has crystallized the determination of labor to fight the present coal crisis out to a finish.

Officials of the A. F. O. L. were today preparing to offer every assistance to the mine workers. Just as determined to fight to a finish is the department of justice, and Attorney General Palmer has behind him the backing of the administration. It is understood that action similar to that taken in Indianapolis may be expected in other places, and that the operators will not escape, if there is evidence that they are attempting to interfere with coal production.

Indianapolis, Dec. 4.—In an effort to end the strike of 400,000 coal miners of the country, the United States government again invoked the power of the federal courts.

Information charging criminal contempt of court was filed in the federal district court here against 84 international and district officers of the United Mine Workers of America, named in the court injunction issued immediately after the strike was called, and capias were issued requiring their appearance to answer the charges. It is alleged that all of the officers have conspired to keep the strike in force and thus have violated the terms of the injunction.

Acting President John L. Lewis, Secretary-Treasurer William Green, Percy Tetlow, statistician, and Elmer Seales, editor of the United Mine Workers' Journal, the only officials of the organization in Indianapolis, were notified of the action and agreed to report in court to furnish bond, fixed at \$10,000 by Federal Judge A. B. Anderson.

Other officials in the jurisdiction of the federal court here, who include Edward Staute and William Mitchell of Terre Haute, officials of district No. 11 of the mine workers, will be served as soon as possible, government officials said, and all will be required to appear next Tuesday morning for hearing.

Dan W. Simms of Lafayette, Ind., special district attorney in charge of enforcement of the injunction, said that the proceedings against the miners' representatives will be pushed and that the proceedings to obtain the appearance in court here of officers who reside outside of Indiana will be instituted at once.

Mr. Simms announced that proceedings against officers of two local unions at Clinton, Ind., also would be instituted very soon, charging them specifically with violations of the injunction by payment of strike benefits to miners. Local No. 2011, he declared, had paid benefits by check, attempting to "camouflage" the real nature of the action by stating that they were for overpayment of dues. Local No. 39, he said, drew one check for \$800 and distributed currency among its members.

Mr. Simms said that the citations against the men named were only a start in the prosecutions against alleged violators of the injunction and that further action might be expected soon.

### NEW FINANCE MEMBER.

Columbus, O., Dec. 3.—Senator Thomas W. Jones, of Meigs county, has been named a member of the senate finance committee to succeed the late Henry W. Davis of Youngstown. Senator Ritter, of Miami county, was named chairman of the committee.

MUSIC CLUB CHORUS TO MAKE FIRST APPEARANCE.

The chorus of the Xenia Woman's Music Club will make its first appearance at the open meeting which is to be held in the seminary chapel next Monday evening at 8 o'clock. The club is inviting all its friends to this meeting. A program of French music will be presented, the chorus singing four numbers, "Alsatian Christmas Song," "Song of the Mountaineer," "Shepherd Song," and "Evening." In addition Mrs. Lawrence Shields and Miss Emma Davidson will sing and Miss Margaret Fletcher will play piano numbers.

### SENIORS TAKE GAME FROM JUNIORS AND WIN CHAMPIONSHIP

The Senior class team defeated the Juniors for the championship of Central High in the final game played Wednesday afternoon, by the score of 27-0.

In the previous games the Seniors had conquered the Sophomores and the Freshmen had felt before the Juniors, so by reason of their victory over the Juniors, the championship for the season goes to the Seniors. On account of the severe weather, the game was shortened and two 15 minute periods played. When the timers whistle blew at the end of the game, the Seniors had amassed 27 points and at the same time held their opponents scoreless.

The game was one sided, but there was enough of the sensational to prevent interest from lagging. On the kickoff Bales ran the ball to the Juniors 30 yard line and advanced it to the 10 after capturing a pass Pillsbury carried it over for the first score, after which Bales missed goal. On a fake kick formation Pillsbury ran 40 yards and carried it over the next minute. Bales kicked goal. This ended the scoring in the first half.

Bales grabbed a pass out of the atmosphere in the second half and crossed the line before being tackled, and also kicked goal. Holland made the feature play when he intercepted one of Lackey's passes and raced 80 yards for a touchdown. Only one did the Juniors get within scoring distance of the goal, namely, when Lackey intercepted a pass and ran to the 10 yard line before he was caught. The Seniors held and a drop-kick was blocked. Pillsbury, Lane, Riddell, and the Taylors played a consistent game for the Seniors, while Lackey, Donges and Moots were big factors in the Junior lineup.

### ATTEMPT FAILS TO FOMENT STRIKES

London, Dec. 4.—The attempt to plunge Italy into a general strike has failed, the Rome correspondent of the Central News telegraphed today. The effort to bring about the national industrial tie up was made by socialists, but their attempts were unsuccessful everywhere, it was said. "Energetic steps are being taken by the police and the citizenry to defeat Bolshevik attempts," added the message.

### EAST END NEWS

Henry Alfred Euell, better known as Dean Euell, died at the Washington Hospital about 8 o'clock Tuesday morning of typhoid. He had been ill for six days. Funeral services will be held at the Christian Church, East Main Street, Friday at 10 o'clock.

Mrs. W. C. Allen is confined to her bed by reason of illness. She has been sick since the first of the week. The funeral of Dean Euell will be held Friday at 1:30 at the Christian Church.

WANT 25% BONUS. Mansfield, O., Dec. 3.—The high school teachers of this city are asking for a bonus of 25 per cent. They claim they cannot live on their present salaries. No action has been taken by the board of education on the request.

Mystery Solved. Her eyes were red, and she explained that she had been to a wedding. "I always cry more at a wedding than I do at a funeral—it's 86 much more uncertain."—Boston Transcript.

### EVANS TRIPLE PHOSPHATES MOST RAPID STRENGTH PRODUCER KNOWN, SAYS AUTHORITY

Nerve Shattered People: Worried and Physically Unfit Can Regain Old Time Energy and Ambition.

In these strenuous times men and women who would be successful must keep themselves physically fit.

In nearly every profession and trade the man with plenty of vigor, a keen mind, a clear brain and confidence, born of good red blood, is the man who is the envy of hundreds who lag behind and are in continual fear of the future.

Most people who lack the energy to go ahead and do things they know they ought to do and are capable of doing, probably need more iron in the blood. But iron alone as a strength giver is not looked on seriously, by the great minds of the medical profession.

Iron in order to be of greatest benefit as an upbuilding preparation must be combined with other vitalizing agents that are known to create steady nerves, muscular strength and more brain power and must be in liquid form.

Evans Triple Phosphate is just such a preparation, and the reason it is put up in liquid form is because liquids are more easily assimilated and sure-

ly do get into the blood.

Good advice to every person who wants increased strength, a more vigorous body, nerves that never weaken and a mind so clear and energetic that difficult problems of life are easily disposed of, is to take a regular dose of Evans Triple Phosphate in a wine glass of water 5 to 10 minutes before meals and at bedtime.

The rapid increase in health and strength experienced by those who carefully follow these directions prove the great value of Evans Triple Phosphate as a reconstructive tonic to have. Troubles, Anaemia, Chlorosis, Blood Disorders, Prostration following fevers and in general convalescence. While for the patient who is just recovering from influenza, pneumonia or other long, wasting sickness, Evans Triple Phosphate will quickly restore the rundown system, increase the appetite and enrich the blood.

All good pharmacists dispense Evans Triple Phosphate in the original bottle. You are sure to get it at Sayre & Hemphill's.

### PEARS ANKLE DEEP! NO ITS THE TRUTH, IT HAPPENED IN TEXAS

Imagine yourself wading ankle deep through an orchard strewn with pears. Not ordinary pears, but great luscious fruit weighing nearly a pound, golden, and dripping with juice.

That was the situation on the farm of J. E. Lutz, former Xenian, near Vernon, Texas, last fall.

So beautiful was the yield from 1,800 trees, that cars could not be obtained to ship them to points where they could be disposed of. Consequently the fruit, much of it wasted, Mr. Lutz allowed churches in Vernon to have much of the fruit, and it was preserved by the women of the congregations for use at future congregational affairs and for their mission charities.

A box of the pears, each one of them astonishingly large, was shipped by Mr. Lutz to his sisters, Mrs. Ida Sims and Miss Cora Lutz in this city, and was received by them several days ago.

### Are You Economical?

Surely you ought to be, in these strenuous times. There is no greater economy, at the present high price of leather, than to get your shoes mended where they are mended right.

Also we have the indisputable reputation of giving the quickest service in the city.

WE DO IT WHILE YOU WAIT

25 West Main Street Xenia, Ohio.

### TELEPHONE YOUR WANT ADS

Say Jimmie! If you want something good for breakfast, try

HUDNUTS Quickmush It's Great!

### Tempting, Satisfying

Mothers marvel at the way the children take to it. They love its rich, creamy flavor.

A tempting, satisfying food for grown-ups too. Just the thing for invalids and folks on a diet.

Wholesome, easily digested, perfectly balanced—its fresh flavor appeals to all the family.

Serve Quickmush cereal every day for breakfast. Other hasty-tasty dishes for lunch and dinner—try them.

#### Try these Delicious Dishes for Breakfast, Lunch or Dinner

For rich creamy cereal, stir one cup of Quickmush into five cups of cold water, salted to taste. Boil ten minutes and serve piping hot with cream and sugar.

One cupful of Quickmush makes enough cereal for five people.

For Fried Quickmush, put leftover cereal in a mold. When cold, slice and fry to a crisp brown. Serve with butter and syrup.

These are typical of the many economical "Hasty-Tasty" dishes that can be prepared with Quickmush.

### BLEAK AND BARREN COUNTRY

Montenegro Surely Seems a Fitting Cradle for the Bold and Warlike Race Living There.

From Podgoritz we retraced our steps to Rijek, on the uppermost arm of Lake Scutari, and then followed the road up the bold face of a mountain, with splendid views back over the lake, writes William Warfield in the Century. Before we reached the path over which our road was leading we were in several inches of snow, for March was only half over. Even here in this seemingly inhospitable region is a scattered village, with a few terraced fields, looking down toward Scutari, whence the ancestors of the builders were driven to take refuge in the hills. The view here is broader than any other I have yet described. From snow-covered heights one looks to right and left over serrated ranks of peaks, cold in their icy garb. Directly in front there is a bold sweep of snowless hills, warm by comparison despite the barren boulder-strewn slopes, and beyond lies a lake, violet in the far distance.

Once over the pass there is a drop of only a few hundred feet to Cetinje, which lies 2,000 feet above the lake. It is in another flat-bottomed basin, irregularly walled by a steep slope, the center of Montenegrin resistance to the Turk for five centuries, occasionally taken, but never held for long. Here the deposed Nicholas had his palace and was surrounded by the politicians of his little state. It is more pretentious as a town than Podgoritz and wealthier as a community.

The palace is uninteresting, but the monastery, over against the mountain, is a fascinating place. It is the Vatican of Montenegro, the seat of the metropolitan, the orthodox archbishop who rules this little flock.

**Etiquette of Walking.**  
When in the street, especially in daytime, a lady is not supposed to take a gentleman's arm, unless she is infirm or elderly, though she may properly do so at night. When walking with two ladies a gentleman may walk on the outside, or the inside, or, rather, the side from which he can best guard his companion or companions from obstacles or danger. It is not good form to take a lady's arm, unless to assist her in some way.

### PENN STATE STAR SHINES IN VICTORY OVER PITT UNIVERSITY.

Bob Higgins.

Bob Higgins, former Peddie Prep School star, whose spectacular plays in the victory of Penn State over the University of Pittsburgh on Thanksgiving Day, were the features of the game. Higgins who was an all-American end in the A. E. F., was playing his last game for Bezedek's eleven and he gave the best exhibition in his career. The victory of Bezedek's eleven was the first they scored over the Pitt Panthers since 1912. The score was 20 to 0.

## \$7 A PAIR SHOE INCREASE INDICATED FOR NEXT YEAR.

Despite investigations of the shoe industry by federal and state governments, and despite earlier promises of leading manufacturers that the upper level in shoe prices had been reached, the business is confronted by conditions today that indicate almost sensational increases in prices next year. Eastern manufacturers are taking orders today at \$3 over and above the price for which they have just made deliveries, which sets that advance as a base for the spring market, and the stock for next fall is being made at \$5 to \$7 per pair higher than present figures. The general public will have a practical demonstration of the new costs next spring.

Eastern manufacturers are simply unable to cope with the situation. They cannot get the leather and they cannot make the shoes that the market calls for. Their production has fallen off 50 per cent, without as yet causing a shortage of shoes on the market.

One of the largest houses in Boston has resorted to the rather unusual expedient of going outside the eastern zone and patronizing the western manufacturers. It has placed a heavy order for one of the medium grade shoes made in St. Louis. The buyer finds that the western manufacturers, perhaps less hampered, are operating on a broader gauge than the eastern plants.

Boston is even going to England to get shoes. An order for \$10,000 worth of shoes, of the brogue type, has been placed with a manufacturer in England this week, and the price which the Boston house pays is \$2 to \$3 per pair less than it would have to pay for the shoes at home.

England is in a position to place her goods here at that price because she bought 30,000,000 feet of leather in America last June at sixty to eighty cents a foot, which forced the price of the same leather up to \$1 at home, and then to \$1.20, and it has since gone up to \$1.50.

## THE DIVORCE SCANDAL.

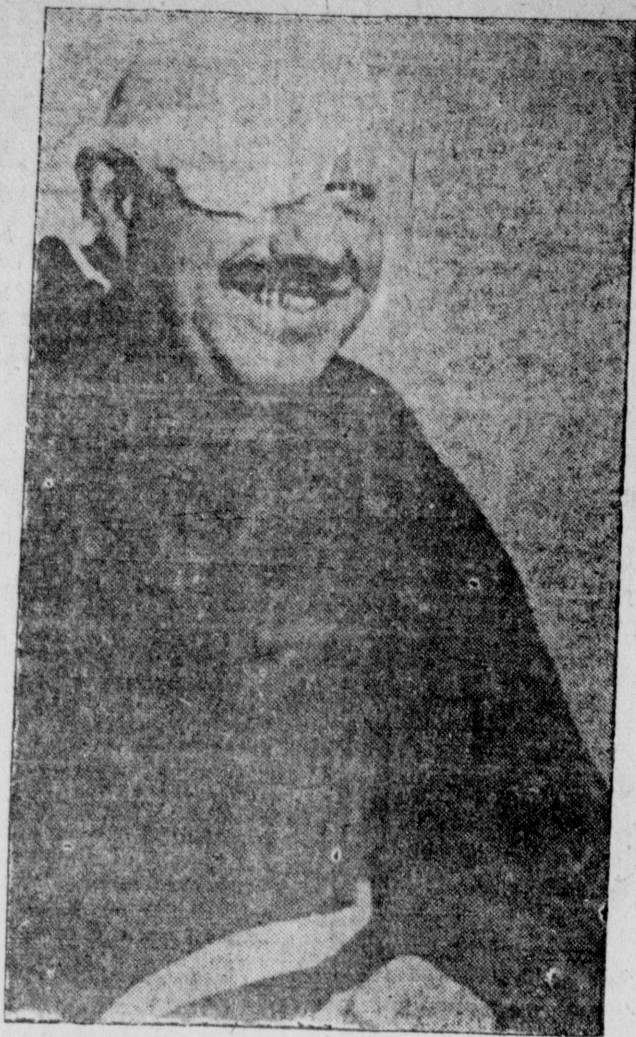

Chicago has a record of six thousand divorces during the past year. Wisconsin reports an increase of 35% in divorces granted in the first six months of this year. One district in Nebraska has been compelled to assign an additional judge to the hearing of divorce cases because of the unusual rush of that kind of court business. In Iowa, one divorce for every three marriages has been estimated. Reports from other parts of the country might be cited to show similar conditions.

We stick to our oft repeated remedy for civil love. Have a law requiring all who propose marriage to have the bans for same published or proclaimed in some regular church for two weeks before marriage—as is required by the Catholic church. This would interdict the running off to Kentucky for marriage of thousands of fool Ohio boys and girls. Half the time they do it as a joke—many in haste, to repent at leisure.

If we had had such a ban law much anguish would have been spared some parents in our own community in the last ten years, and the divorce court would have been spared a lot of trouble.

The marriage relation is too holy and honorable a kinship to be made a plaything of. It is the strictest tie of friendship, the holiest expression of love—a delicate flower which will not bear the slightest touch of unkindness. Hence how important that

WILLIAM E. (PUSSYFOOT) JOHNSON.

William E. (Pussyfoot) Johnson, American prohibition worker in London, who was roughly handled by a crowd of students November 13th, during a prohibition speech and paraded through the streets of London. Prohibition does not seem popular in Merrie England where several thousand barrels of Rum have just been released from war restrictions for public consumption.

lovers should fully understand the true nature of each other before proposing to become man and wife.

The sanctity of marriage and the family relation make the corner-stone of civilization. They merit our most sincere consideration.

## Heat Bursts Gravel.

The bureau of standards has found that if the concrete is made with gravel, particularly siliceous gravel, there is a tendency for the stones to burst in extreme heat, which disintegrates the concrete. Accordingly it is recommended that gravel be avoided wherever possible, but if impossible the gravel concrete may be protected from extreme heat by coating it with an inch of cement, held in place by a wire mesh. Plasters may also be used in which asbestos is the principal constituent.

## GIVES GRIZZLY HIGHEST RANK

Writer Deplores General Idea that the Animal is of Coarse and Crude Temperament.

A grizzly has supersensitive ears, and loud, harsh sounds give his nerves a harrowing shock. Through his higher development the grizzly probably suffers more intensely and enjoys more fully than other animals. The clashing city noises must be a never-ending irritation and torture to a bear who has been sentenced to end his days in a riotous environment. How he must yearn for the hush of the wilderness! And, as his sense of smell is also amazingly developed, perhaps he longs for a whiff of pine-scented air and the wild, exquisite perfume of the violets.

Experience in many zoos had shown that subjecting caged grizzlies to close

contact with people is usually cruelty to animals. Often they become cross, and a number of crowd-worried grizzlies have died prematurely from resultant apoplexy. Modern zoo bear pens are constructed so that the bear is beyond the wiles of visitors—so that he can have much privacy—one of the needs of any grizzly. Perhaps we too often think of the bulky grizzly as being coarse and crude. But he is an animal of the highest type, sensitive, independent and retiring. The normal bear is good tempered and cheerful.—Enos A. Mills in "The Grizzly. Our Greatest Wild Animal."

Next Morning the Leaves Had Two.  
A baker of raisin bread whose product got shyer and shyer or raisins one day received this sarcastic letter: "Herewith I hasten to return a raisin which I found in a loaf bought on your premises this morning. Trusting that you have not been inconvenienced in any way by its temporary loss, I remain, etc."

## TROOPS IN READINESS FOR ANOTHER DASH INTO MEXICO

U. S. troops in Mexico at the time of Pershing's punitive expedition.

Relations between Mexico and the United States are strained almost to the breaking point and

many thousands of United States regular troops are stationed along the border in instant readiness for

the dash across the international boundary line, should this move be ordered from Washington.

## HIGH SCHOOL TO LOSE TEN FOOT BALL MEN THROUGH GRADUATION

Probably the biggest difficulty a High School athletic coach has to contend with is the training of new men every year.

It is rare that High School students "make the team" before they are seniors, or at least until their third year, and about the time they are at the climax of their High School athletic career they are snatched off by graduation.

This was what Coach V. L. Faires of Central High School, had to contend with when he organized his foot ball squad this year, nine of last year's athletes leaving last June. Captain Riddell, who was a veteran tackle and Beals, a veteran guard, were all that were left, and the local mentor thought that he was having difficulties at the start of the season.

Yet the same state of affairs will face the coach next fall, for ten of the lads who won their letters on this year's eleven have played their last game with the blue and white. These lads are Captain Riddell, Bales, Knee, Holland, Walker Taylor, Willard Taylor, Pillsbury, Mendenhall, Sayre and Richards. Boxwell, who played a stellar game in the backfield during the latter part of the season, and who is a Sophomore, and LeSourd,

who received a broken collar bone and was forced to retire late in the season, will be back next year. LeSourd is a junior.

Hyman, Flynn and others who substituted on the squad, will be lost by graduation, while Cowan, McCoy, Crow and one or two others are the substitutes who with Boxwell and LeSourd will form the nucleus of next year's squad.

Washington C. H., which turned out a crack team this year, although playing rather an easy schedule, will also lose ten men by graduation. Several of the Payette county lads were playing their third year on the team and several of them also were playing after serving in France for a time. The team won every game it played, ran up large scores and was rarely scored upon.

## ATTRACTED BY "GOLDEN BED"

Marquesas Islanders Fascinated by Sight of Article of Furniture New to Them.

An amusing tale is told of the coming of the first brass bed to Atuona, Atuona is one of the Marquesas Islands, a place of coconut palms, and people who are still ornamentally tattooed and who used to be cannibals before the missionaries arrived and taught them better. But no missionary had ever disembarked a brass bed on the beach of Atuona; it came with the luggage of a curious traveler who had seen the island from the deck of a steamer, and felt an impulse to live there a while and see what it was like. He could not depart, he says, "without penetrating into those abrupt and melancholy depths of forest, without endeavoring, though ever so feebly, to stir the cold brew of legend and tale, fast disappearing under stupor and forgetfulness." And so one day the boat brought him ashore, and the populace welcomed him, marveling at the sight of the "golden bed" and nearly overcome with delight at the elasticity of the springs under the mattress. They took turns bouncing on it, while he drove an easy bargain with the possessor of a house for the use of that domicile in return for leaving the "golden bed" with the owner when he departed. Then, the bargain concluded, the wife of the chief who owned the house had the unique privilege of sitting on the bed, happily bouncing up and down, till it was lifted on the tattooed shoulders of four Marquesans and marched with honor to its destination.

## DRINK ONLY WHEN THIRSTY

Physician Decries Having Any Set Time for the Taking of Liquid into the System.

No rules for water drinking can be laid down, but the best guide is the thirst of the individual, according to Dr. John C. Hemmeter of Baltimore, in an address at a meeting of the American Therapeutic association.

Our bodies have a reservoir in which much water is stored; this is in the tissues underlying the skin and in the muscles. The blood and lymph contain about three and a half quarts of water. In the course of a day about two quarts of gastric juice, from one and a half to two quarts of saliva,

one and a half quarts of pancreatic juice, and intestinal juices in quantities that have been estimated variously at between two and eight quarts, are secreted. Thus a man secretes altogether about eight quarts of digestive juices every day; yet he has only from three to four quarts of blood and lymph.

The mystery of whence the water comes and whither it goes is solved when we learn that the reservoirs under the skin supply it and reabsorb it. When we are thirsty it means that the supply in the reservoirs is running low. Perspiration disposes of much of this water, and by evaporation keeps the body cool. Physical work or exercise produces much heat and if a man who performs it cannot perspire his temperature goes up rapidly.

## Reap Additional Profits by Spreading Straw.

Why waste your most valuable by-product?

Every ton of straw is worth \$2.00 to \$5.00 per ton as fertilizer alone. Besides that, it protects your crops against winter-kill and drouth—your best guarantee of big yields.

It's a soil mellowing, a valuable source of humus and a reservoir of moisture. It prevents soil-blowing and "patchy" spots—holds a protecting blanket of snow on wheat.

Experimental stations and practical farmers prove that straw spread with the "Eagle" will net

\$5.00 to \$25.00 more per acre per year.

Sales increased fourfold in last two years. This is the best proof of its merits. Let us show you what the "Eagle" will do. Call today.

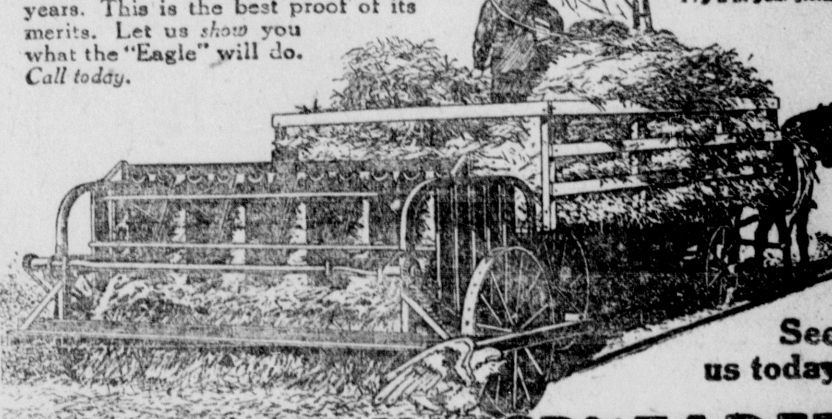

## "Eagle" Facts

Spreads a golden carpet eight feet wide. Takes the backache out of mulching and does it five times as fast as hand work, or as much as

Twenty acres per day.

Just hitch it to any wagon—nothing to install. Large adjustable hopper makes plugging easy—no lifting or spilling. An endless belt of boards with teeth drag the straw away from the wagon, while eleven kickers toss the surplus straw back. Cleared both sides, pull straight. Slow geared, very light draft. Works in high wind. Spreads any desired quantity—dry, wet, bunched or rotted.

Fully guaranteed. Try it in your field.

See us today

## EAGLE STRAW SPREADER

## OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure a grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

## RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Liniment

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Liniment" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Liniment" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Lumber up! Get a 30 cent bottle of old-time, honest "St. Jacobs Liniment" from an drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

## CO. ATHLETIC ASSN. IS FORMED TO PROTECT INTERESTS OF PLAYERS

A County Athletic Association to make athletics more uniform and to provide a means by which disputes could be settled, has been formed in Greene County.

A committee of five will be appointed each year by the county superintendent of schools and they will settle all disputes that may occur. The decision of this committee will be final and athletic relations will be broken with any school not abiding by them.

The rules and regulations regarding athletics in the county are very similar in many respects to those of the Ohio Athletic Association.

The County Superintendent has appointed the following as members of the Greene County Athletic Committee for the season of 1919-1920: E. J. Arnold, Jamestown, chairman; Harold M. Little, Yellow Springs; L. D. Parker, Cedarville; V. I. Faires, Xenia; William R. Collins, Jamestown. The rules and regulations governing athletics in Greene County are as follows:

### Eligibility

1. No pupil may take part in inter-high school athletics unless:
  - a. He has a passing grade in all subjects. (Passing grade is uniform all over the county.)
  - b. He has the approval of the head of the school. (School head may, for unsportsmanlike conduct or any other reason prohibit a player from taking part in any contest.)
  - c. He is physically fit.
2. No high school pupil who has reached the age of twenty-one shall be eligible to represent his school.
3. High school pupils shall abstain from the use of tobacco. (Penalty, ineligibility.)
4. High school pupils shall not use profanity. (Penalty, suspension from team.)
5. No pupil who is a graduate of a four-year secondary school course is eligible to represent the school.
6. Only pupils taking the full course shall be eligible to represent the school.
7. Any boy who has played on a college team is not eligible to represent a high school.
8. Any high school pupil known to have bet or acted as agent in betting shall be debarred from competition for one year.

### Contests

1. All contests must be scheduled for the end of the week if possible.
2. The schedule of games must be approved by the head of the school.
3. Eligible lists of not to exceed 10 players must be interchanged by contesting schools not less than 24 hours before the game. This list shall be certified by the head of the schools.
4. Each team shall bear its own transportation expenses.
5. Each team shall be accompanied by some member of its faculty.
6. Teams cancelling games with out sufficient reason shall be penalized.
7. Teams playing in Greene county must conform with these regulations.
8. A competent and neutral Referee shall be furnished by the home team.

### Athletic Courtesy

1. Rules of the games are to be regarded as mutual agreements, the spirit or letter of which one should no sooner try to evade or break than one would any other agreement between gentlemen.
2. Visiting teams are to be honored guests of the home team and all their mutual relationships are to be governed by the spirit which is understood to guide in such relationship.
3. No action is to be taken nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to ones opponents or to the public.
4. No advantages are to be sought over others except those in which the game is understood to show superiority.
5. Officials and opponents are to be regarded and treated as honest in intention. When opponents are evidently not gentlemen and officials manifestly dishonest or incompetent,

## Use Famo Regularly on the Children's Hair

Start early to assure the children healthy scalps by using FAMO on their heads every day. Playing children can't escape dirt. Dirt stimulates the growth of the sebaceous germ which causes dandruff.

FAMO is actually a medicine. It kills this germ, and keeps the hair and scalp healthy and clean. It also makes stubborn hair easier to train and gives the hair of both boys and girls a beautiful sheen, of which all mothers are proud.

The child who uses FAMO regularly will never suffer from itchy scalp; and the boy can look forward to manhood without fear of early baldness or gray hair.

FAMO is a wonderful treatment for the hair and scalp, that was developed in one of the old pharmaceutical houses of Detroit.

Not only does it destroy the deadly dandruff bacilli, but it makes the hair soft and luxuriant.

Every member of the family should use FAMO every day—as any good mother would.

FAMO is sold at all drug stores. The larger bottle contains a third more than the average.

It does not give irritation, money will be refunded.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean excretion forms in scales or flakes and is commonly known as dandruff.

From the laboratories of E. A. Thompson & Company, Manufacturing Pharmacists, Detroit, Michigan.

Sohn's Drug Store

Special Famo Agents,

No. 7 E. Main St. Xenia, Ohio

future relationship may be avoided.

6. Decisions of officials are to be abided by even when they seem unfair.

7. Ungentlemanly or unfair means are not to be used even when they are used by opponents.

8. Good points in others should be appreciated and suitable recognition given.

## CEDARVILLE

### ENTERTAINS CLUB.

The ladies of the Home Culture club and their husbands, were entertained Monday evening, by Mr. and Mrs. Harry Nagley of Xenia.

### ADDRESSES COLLEGE STUDENTS

Rev. Bustler, pastor of the Methodist church, gave an address to the students of Cedarville college, in the chapel exercises, Tuesday morning.

The pupils of the Cedarville High School gave a literary program Monday night in the High School auditorium.

### READER IS ENTERTAINING.

The second number of the Citizens' Lecture Course was given in the opera house, Tuesday evening, by Edwin M. Whitney, who is a reader of plays. Miss Helen Cresswell, who teaches in the High School at Edington, Ohio, spent Thanksgiving with her parents. Mr. and Mrs. Will Cresswell. Miss Reba Harbinson entertained a

**ABOUT RHEUMATISM**

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It can not be cured by local or external applications. It must have constitutional treatment.

Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines with excellent alteratives and tonic, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

## FORGET YOUR RHEUMATISM

Don't suffer when you can get "Neutrone Prescription 99."

Rheumatism, one of the most common ailments, is one of the hardest to cure, because of its being a blood disease. Any remedy to be effective must purify the blood and kidneys, common sense teaches you this.

That is why "Neutrone Prescription 99" is so successful, it is a combination of blood purifying agents prepared from the prescription of a specialist.

It relieves those sore, inflamed joints and muscles. "It puts out the fire." It does all these things, restores your health, makes you happy and free from pain.

Go to your druggist today and get a bottle, then say, god-bye, Rheumatism. 50c and \$1.00 the bottle. For sale by Sohn's Drug Store, and leading Druggists everywhere.

**COLDS CHECK GROWTH**

Boys and girls cannot stay strong if they are allowed to suffer from this aggravating malady. There is a way to stop it—a way to overcome it.

It has been proved by the years of success, and is without a single harmful experience. A single bottle of Duffee's Cough Syrup in the house this winter. At the first symptom of a cold, or upon undue exposure, give the youngsters the relief they need. Keep them free from coughs and colds, croup and bronchitis, will grow faster, be brighter, suffer less in years to come.

This old reliable remedy has an un-failing record. Thousands of people who have used it for a generation say they can't keep house without it. You will say so, too, when you have tried it. At druggists and grocers—25c and 50c a bottle.

**As Influenza**

is an exaggerated form of Grip. LAXATIVE BROMO QUININE Tablets should be taken in larger doses than is prescribed for ordinary Grip. A good plan is not to wait until you are sick, but PREVENT IT by taking LAXATIVE BROMO QUININE Tablets in time.

## BE PREPARED FOR INFLUENZA

**CUT THIS OUT.**

Many medical men say we will probably have another epidemic this fall. Let us all hope and pray we will not. But at the same time let us be well prepared.

The flu as it is called, usually starts with a cold and tightness in the chest. If you even suspect there is a chance that you may be getting influenza take a good dose of laxative tea, such as Dr. Carter's, B. B. Tea or Celery King and send for your physician. While you are waiting for the doctor rub Begg's Mustard on throat and chest. Rub it on freely and never mind if it does feel good and hot, it cannot blister on the tenderest skin. But don't stop at throat and chest; get some one to rub this enemy of inflammation over your shoulder blades. This is one of the most sensible precautions you can take against pneumonia which often quickly follows the cold. You can get Begg's Mustard for 30 and 60 cents in yellow boxes all ready for use at any drug store.

Remember it is made of real yellow mustard. Use it for sore throat, coughs, colds, pleurisy, bronchitis, lumbago and all aches and pains.

**BLISS NATIVE HERB TABLETS**

**Restore a Healthy Condition**

Why permit your liver and kidneys to remain in a state of chronic unhealthy condition when Bliss Native Herb Tablets taken at regular intervals will free you from pain, and keep your system in sound physical health. Don't neglect them, for to do so will lead to perhaps very serious consequences. Take Bliss Native Herb Tablets at the first sign of trouble and you will be greatly surprised at the results. They are recognized everywhere as the standard herb remedy for all ills due to a disordered stomach. Constipation disappears, the liver and kidneys function properly, the blood becomes pure and healthy, the appetite improves, the general system becomes invigorated.

Mrs. Francis Mervier, Brunswick, Ga., writes: "My liver and kidneys were very bad but thanks to Bliss Native Herb Tablets I have not a trace of my old trouble now. I shall continue to keep them on hand just as long as I can get them."

Bliss Native Herb Tablets are put up in two sizes 50c and \$1.00. Accept no substitutes. Look for the money back guarantee on every box.

Sold by local druggists and local agents everywhere. Made by Alonzo D. Bliss Co., Washington, D. C.

## STAR SWIMMERS DISCUSS TRUDGEON AND OVERHAND IN SUNNY HAWAIIAN RESORT

Left to right: Norman Ross, Fannie Durack, Duke Kahanamoku and Stubby Kruger.

While most folk are worrying about the coal shortage and the chances of shivering around the fireless fireside these aquatic stars, down in warm, sunny Honolulu are buzzing about the trudgeon crawl, the English overhand and the other swimming strokes. Ross stands out as the greatest all-around swimmer in the world today. Fannie Durack is queen of the Australian feminine stars and one of the best in the sport. Duke Kahanamoku is the great Hawaiian star.

**Fragile Sister.**

Tommy was the proud brother of a two-weeks-old baby sister. One day while visiting the neighbors he was asked why he didn't bring his sister with him. A startled expression came over the little boy's face and he said: "Oh my, I couldn't bring her, she's breakable!"

## Important to all Women Readers of this Paper.

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.

**CLEAN UP POISON SOAKED KIDNEYS ADVISES DR. CAREY**

Thousands Die Every Year Because They Allow Poisonous Deposits to Accumulate in Kidneys.

Don't flush your kidneys with harsh makeshifts says Dr. Carey, they are too frail and delicately constructed to treat them rough.

For 40 years I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price.

Beware of kidney disease, thousands die of it every year who ought to be enjoying the blessings of life and health.

If you have specks floating before the eyes, puffs under the eyes, clammy feet or moist palms, backache or sideache you ought to get a bottle of Dr. Carey's Marshroot right away.

It has conquered thousands of cases of a creaky and bladder diseases and is the medicine you can always depend upon.

**IMPORTANT**—Dr. Daniel G. Carey has been a practicing physician for many years and his great prescription, "Marshroot," has cured thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold through drug stores in order to accommodate his patients. Sayre & Hemphill will supply you.

## DEATH CLAIMS MAN PROMINENT IN XENIA

Curtis Lee Jeffries, well known carpenter and cabinet maker, died suddenly at 10 o'clock, Wednesday night, at his home, 624 West Main street. He was sitting in a chair, smoking, when stricken.

Suffering from organic heart trouble, Mr. Jeffries had been confined to the house for the last four weeks, but was thought to be convalescing.

He was a son of the late Z. D. Jeffries and was born in Cedarvale, 48 years ago, last November 12. He married Miss Lillian Tyson 27 years ago, December 29, and she survives him with four children, Clarence, Arch, Fay and Cleo.

His mother, Mrs. Rebecca Jeffries, two brothers and a sister, Liam and Earl, and Mrs. Rebecca Sutton, all live in Dayton.

His brother, Albert Jeffries, with whom he was in business, died a year ago. He was a member of the First M. E. church and the D. of A. lodge.

Funeral services will be held at the home, Saturday, at 2 o'clock.

## MRS. E. J. HARLAN DIES ON THURSDAY

Mrs. Eliza J. Harlan, aged 75 years, widow of Isaac Harlan, died at 4 o'clock, Thursday morning at the home of her sister, Mrs. H. A. Arnold, 226 West street, with whom she lived for several years.

Mrs. Harlan lived most of her life in the vicinity of Lumberton. She is survived by two sisters, Mrs. Arnold, Mrs. Emma Street of California, and a brother, William A. Haines of Lumberton.

Funeral services will be held at the Arnold home, Friday, at 1 o'clock, and burial will be made at Wilmington.

**"Vicks"**

**GET IT AT**

**Donges**

Proof of Biblical Truth.

Perhaps the most impressive fact of record concerning disease in ancient times is found in the Bible, in the First Book of Samuel, where we are told that the land where the Philistines were overrun with a plague of rats or mice and that thereupon the people were smitten with bubonic plague to punish them for their seizure of the Ark of the Covenant. Thousands of years later our modern science discovered that rats are the chief disseminators of that pestilence.

—New York Herald.

## NEWSPAPER PUBLISHERS FORCED TO USE AIRPLANES TO REACH SOARING PRICES OF NEWS PRINT

And now comes the high price of print paper, as an added worry to the troubled brow of the newspaper publisher.

"We offer subject to prior sale, 60 tons of 50 1-2 inch rolls newsprint, for immediate shipment, at the price of 7 8-4 cents a pound, N. Y. Please wire, if interested."

Only this and nothing more. Yet this brief letter from a paper manufacturer and dealer tells a story of a price raise that far exceeds the price advances in food and clothing.

The price quoted in this message is just double the price for the same quality paper a year ago. At that time consumers thought they were paying a high price when they paid 3 1-2 cents a pound, but now they have lost all hope. The price of over seven cents a pound is three times what it was when the advance began, along with the price raises in other commodities, three years ago.

Many a small newspaper has perished on the merciless shoals of overhead, lately. Many another journal has raised its subscription prices to meet the high price of paper. Wednesday, the three daily papers in Birmingham, Ala., raised from three to five cents during the week, and from five to ten cents for Sunday editions.

As Luke McLuke might ask, "what has become of the old-time publisher who used to make money on his circulation?" Alas, and alas, he has gone to the place where good publishers are bound to go. Old-time newspaper men can remember when a penny taken in for a newspaper, was a half cent earned.

It is a battle with the newsprint men now to keep the heads of the smaller papers above water. As they are cast about in the stormy seas of newsprint prices trebled, but newsprint at any price, we cannot help breathe a prayer, "God, save the wandering publisher tonight."

## SOUTH CHARLESTON

Ralph Pringle has returned from Mt. Carmel hospital, at Columbus, and is at the home of his mother, Mrs. S. D. Pringle.

Mrs. Darwin Pierce and Lily Deal are spending a couple of weeks in Washington City, with Lieut. Walter Pierce.

Wanted—Girl for general house work. 205 E. Market Street. 12-5

## MRS. AMY FULLER DIES AFTER ILLNESS

Mrs. Amy Fuller Johnson, the widow of Jesse Johnson, who was for many years a grocer in Jamestown, died at 8 o'clock Wednesday night of a complication of ailments. She has been in failing health for a year, and was confined to her bed for the last four weeks.

Mrs. Johnson is survived by one son, W. W. Johnson, president of the Peoples Bank at Jamestown, and a grocer in that place. Dr. Stanley Johnson of Hagerstown, Md., is her grandson. Mrs. Johnson was a member of the Jamestown Church of Christ. Funeral arrangements have not been made.

## Print Paper Probe Sought By Ohioan

Washington, Dec. 4.—Representative Ricketts, Republican, of Ohio introduced a resolution today proposing investigation of "every matter touching the high cost of print paper to publishers."

Specifically, the possibility of monopoly in the print paper industry; would be investigated, and "the reason for the apparent discrimination" between the metropolitan and small city dailies in the distribution of paper.

**Ostrich a Monogamist.**

In the wild state ostriches pair in the spring. Once paired they remain mated "till death do them part." The female makes a shallow hollow in the ground away from water courses for her nest. During the sitting period the male remains on the nest by night the female by day.

**Why?**

Into the end of the handle of a new Springfield, spent Thursday at the home of Alfred Beakman.

## CAPITOL, SCENE OF MUDSLINGING BATTLE, GIVEN BATH AS NEW CONGRESS CONVENES

Stream of water playing on capitol.

After weeks of mudslinging during the protracted debate on the league of nations covenant and the peace treaty a bath for the U. S. capitol seems timely. It was given a thorough washing externally by the stream from a fire hose today before the new congress convened, December 2.

## SQUEEZED TO DEATH

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order. Keep these organs healthy by taking

**GOLD MEDAL**

**HAARLEM OIL CAPSULES**

The world's standard remedy for kidney, liver, bladder and uric acid troubles. Famous since 1895. Take regularly and keep in good health. In three sizes, all druggists. Guaranteed as represented. Look for the name Gold Medal on every box and accept no imitation.

times I was utterly miserable, suspicious of every word and action of either my husband, or those whom he appeared to like. I used to thank God my child was a boy, so would not have to suffer as I had done because of jealousy. I held the opinion held by most women, that men never loved in the same way; never cared quite so much as women did. As I grew older I found out I was wrong. But at this time, I thought of men, most men, as rather gay Lotharites, intent upon making themselves agreeable to any pretty women, regardless of others. Rose Kemp had gone back to her husband.

When I read her letter I scarcely grasped its contents, so surprised was I that she had decided to return to him.

"Dear Sandra: You will be interested to know that I have gone back to Walter, she commenced her letter, 'I found I could not be happy away from him. Had I been, I never should have gone back because he has changed in no slightest particular. But as I was unhappy away from him even more so than with him, I have concluded to stay as long as he will have me.'

"You see, Sandra, I constantly visualized him as with some other woman; planning to divorce me. It may be that I can at least put off that day by being with him. I shall keep his home as best I can, and shall try not to find fault, no matter what he does. I did at first, you know. He is the sort of man who will not endure to be criticised. I will never complain or make things unpleasant when he is around. Perhaps I may at least win him to the extent that he will not be so anxious to be free.

"Never cease to be thankful, Sandra, that you have a husband who does not run after other women. That is putting it baldly, but why should I try to hide things from you? I know you had to play second fiddle, but what is that when the other woman is dead and gone, to playing second, third or fourth as I am doing? As I have done ever since I married Walter."

"I never shall leave him again. If things become too hard to bear, I shall end it all. Life without him, without at least the pretense of his affection, isn't worth living for me. It is strange isn't it, Sandra, how we women give ourselves, body and soul, to the man we love? While with them there is always something withheld."

"I would ask you to visit me, but I do not want even you to see the way I am neglected; what I have to bear. I have pride enough left for that; even if I have none where it is between Walter and me."

"Write me occasionally, and send me a picture of your boy."

"Love, Rose."

I cried bitterly over Rose's letter. It was so utterly hopeless. Then I showed it to Everett.

"Do you suppose she really would do what she threatens?" I asked fearfully.

"I hardly think so—yet she might. Your friend is a very temperamental woman. She is willful, and her unfortunate marriage seems to have made her very dependent. Don't think about her any more than you can help. You can do her no good, and it will only make you unhappy."

He had made no mention of the paragraph in which Rose had spoken of me as playing "second fiddle." I had forgotten all about it when I let him read the letter. I wouldn't have had him see what she had said for a good deal. And I was thankful and grateful that he did not mention it.

I answered the letter at once, and sent her a picture of Junior, a lovely one we had just taken of him. I also sent her a book I had just read and which I had enjoyed hugely. Her reply, just a short note, was full of gratitude.

"Junior's picture is on my dressing table. I call him my 'little sweetheart,'" she said at the close. "She has no other," I thought pityingly.

Tomorrow—Sandra Realizes That She Has Developed.

## Lace-Making in China.

Foreign missionaries in Chefoo, Shanghai, Foochow, Amoy and Swatow have introduced lace making among the Chinese women, and considerable lace has been exported from time to time. Silk, linen and cotton thread are used in Chefoo, and linen and cotton in the other places. The lace is made more cheaply than is possible elsewhere because of the low wages paid in China, but a lack of enterprise in changing patterns to meet changing tastes and fashions abroad prevents the industry from assuming larger proportions.

## ENATOR'S CAMPAIGN MANAGER INDICTED

Paul H. King.

Paul H. King of Detroit, who was manager of the Newberry campaign committee last year, has been indicted by a federal grand jury in Grand Rapids charged with corruption, fraud and conspiracy in connection with the election by which Mr. Newberry obtained a seat in the United States senate. Judge Sessions, in whose court the indictments were found, indicated that the evidence before the grand jury disclosed the fraudulent expenditure of \$500,000.

## Truth in Art.

I am afraid the reader must be, by this time, almost tired of hearing about truth. But I cannot help this: the more I have examined the various forms of art, and exercised myself in receiving their differently intended impressions, the more I have found this truthfulness a final test, and the only test, of lasting power; and, although our concern in this part of our inquiry is, professedly, with the beauty which blossoms out of truth, still I find myself compelled always to gather it by the stalk, not by the petals. I cannot hold the beauty, nor be sure of it for a moment, but by feeling for that strong stem.—Ruskin.

## Have Some Pickled Kelp.

An addition to the delicatessen line is pickled kelp, put up in glass bottles. It is not only edible, but really delicious.

## GIRLS! A MASS

## OF WAVY, GLEAMY BEAUTIFUL HAIR

Let "Danderine" save and glorify your hair

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the "Danderine" and draw this through your hair taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous, fluffy and so easy to do up. All dust dirt and excessive oil is removed.

Let "Danderine" put more life, color, vigor and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair, and help your hair to grow long, thick, strong and beautiful.

## Delicate Mothers

Vinol, our Cod Liver and Iron Tonic, is the best remedy for Nervous, Run-Down, Anæmic Conditions.

## This Letter Proves It.

Kenton, Del. — "I suffered from nervous, run-down condition and no appetite. I keep house and live on a farm so had to keep about my work as I have five in the family. My druggist recommended Vinol as the best medicine for my condition. I felt better after taking the first bottle. It has given me a good appetite, I sleep better and feel stronger in every way." — Mrs. J. HERMAN WILDS.

It is the Beef and Cod Liver Peptones contained in Vinol aided by Iron and Hypophosphites which makes it such a famous blood-maker, nerve builder and strength creator. Besides Vinol is not a secret medicine. Its full formula is printed on each package.

## SNIFFLS, SNEEZES, HOARSE WHEEZES

Banish them by using Dr. Bell's Pine-Tar-Honey

THOUSANDS recommend it. Dr. Bell's Pine-Tar-Honey isn't an experiment, but a cough and cold remedy that has steadily grown popular because it is quickly effective.

For lingering colds or coughs or fresh attacks its balsamic and healing antiseptics are sure to be beneficial. It brings speedy relief from phlegm-congestion, inflammation, tickling bronchial tubes. Good also for hoarseness, coughs due to gripple, and kindred ailments. Economical—a bottle goes a long way. 30c., 60c., \$1.20.

## A Fine Family Laxative

Podolax, Nature's power to stir, stir the bile and gets the liver on the job. Unlike other laxatives, Podolax is a mild, but positive action. It promptly corrects constipation in young or old, male or female.

## TRY THIS PLEASANT AND EFFECTIVE HOME REMEDY FOR COUGHS AND COLDS

IT WORKS LIKE MAGIC AND COSTS BUT LITTLE TO PREPARE

If you want a cough medicine that is surely fine for coughs, colds, hoarseness, bronchial affections, croup and throat irritations, get 3 oz. of Glando Pine (50 cts. worth) with full directions for preparing and you can make a full pint of excellent cough medicine. Glando Pine gets right at the cause of the cough. The first dose relieves, it opens the air cells and makes you breathe easy. Children love to take it. When prepared according to directions it will not separate as some of the inferior cough medicines do.

George Poinck, a painter and decorator, of Logansport, Ind., says, "I took a severe cold which settled all through my system. I had severe pains in my chest and lungs. My throat was swollen and sore. Glando Pine gave me relief almost instantly. I consider it very fine for coughs and colds."

Mrs. John Polter of 359 S. Williams St., Paulding, Ohio, said, "I neglected to doctor a cold which settled on my lungs. My cold grew worse until I coughed almost constantly, I began to spit blood. I lost in weight and looked so bad that people thought I had tuberculosis. I finally tried Glando Pine. The first bottle helped me. I continued its use until I was cured. I firmly believe that Glando Pine saved my life."

To avoid disappointment be sure you get Glando Pine. Once you have used it you will never want to be without it in your home. Manufactured only by the Gland-Aid Co., Paulding, Ohio.

LOST—Gold cuff link, with letter L. Call 5-310 Citizens phone. Reward.

## SUFFERED TEN YEARS FROM INDIGESTION

Trouble Gone, Appetite Strong, and Eats Anything Without Distress.

"I had a case of catarrh and indigestion, of ten years standing. I had been treated by the best medical men in Michigan. When I commenced taking Milk's Emulsion, I was in bed. I improved so fast that I kept the neighbors wondering. I am now up and working every day. My cough is gone. My appetite is great, and I can eat anything without hurting me." —H. D. Lovelee, Rockford, Mich.

Indigestion is seldom cured by "helping" the stomach digest food. Digestives, like physic pills, usually make slaves of the stomach and bowels. Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physies. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repelling the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day. It produces remarkable results in colds, coughs and bronchial asthma.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

## The High Cost of Loving

By SAIDEE ESTELLE COBB

(Copyright, 1918, by the Western Newspaper Union.)

"What's the answer?" challenged Bob Dacre, as he met his friend Earl Foster coming out of a pawn shop.

The questioner was naturally amazed, for Foster was the heir presumptive of John Baird, a very wealthy man who was more than liberal with the only living relative he seemed to care for.

"Oh, I was just getting rid of some superfluous gewgaws," declared Earl lightly.

"High cost of living?"

"No, the high cost of loving," corrected Earl, with a light laugh. "Of course you know what that harks back to."

"Miss Rhoda Foster, of course."

"You have it right, Bob. Mind you, I am not charging that sweetest of earth's sweet creatures with encouraging any extravagance on my part, but that self-centered uncle of mine has allowed me the choice of giving up Rhoda or his fortune."

"With the result?"

"That I am going to work out my destiny along new lines. I, of course, took a mainly independent course and I hope Rhoda will sustain me in it. I thanked Uncle John for all his past consideration, walked out of the house and have just financed myself for an initial struggle with the cold, hard world."

"But Rhoda?"

"I have written her that when I can prove to myself that I can earn my own living, we shall resume our engagement. I hope and believe she will be true blue."

"So much so," replied Dacre, with a spice of indignation, "that if you leave her without saying what you have written it looks like the basest desertion!"

But Earl had his own ideas, and disdained counsel. He swelled up rather proudly as he remarked:

"I've borrowed enough to give me a farm outfit, and it's overalls and early rising from now on. Fortunately I met an old farmer, Rufus Dayton of Warrenton. He offers me a kind of managerial position on his farm. I leave tonight for the rustic grind and I mean to make a success of it."

Which Earl seemed to have done by the end of a month. If he missed the elegant leisure of luxury he gave no sign of it. He made friends with everybody about the place. He became interested in farming as a science, and sat up in his room nights and pored over books dealing with intensive methods of cultivation and the like.

It was well onto the second month of his apprenticeship when one evening, as he chanced to look up from the book he was perusing, through the open window about 50 feet away, half screened by some shrubbery, he made out an unfamiliar figure. He discerned that it was that of a woman, judging from her garb, and although he could not distinguish the features he was sure that her eyes were fixed upon the lighted room in which he sat. The figure vanished and he thought no more of it until two evenings later, when the same appearance was manifested.

For fully half an hour Earl lingered in his covert. He was about to abandon his vigil when the swish of light garments swept the grass and a graceful, girlish form stood silhouetted against the streaming light from the window. Its pose was that of a person closely observing a certain point of interest, his room. Thither the fixed glance of the intruder was vividly fixed, there could be no mistake as to that, and Earl marvelled, crept nearer, suddenly reached out and plucked the two arms of the mysterious visitor from behind, with the sharp challenge.

"What are you doing here?"

There was a fluttering feminine shriek as the intruder faced about. Earl's hands fell to his side, he fairly reeled with amazement.

"Rhoda!" he cried.

"Oh, Earl, I had to do it!" wailed the loved one. "I have not seen you for weeks," and then she tottered he steadied her in his arms, and kept her there. She was sobbing hysterically, but she clung to him in a fervor of joy.

"I have just spied all," whimpered Rhoda, "and Uncle John will scold me terribly because both of us were to come to the farm tomorrow and explain."

"Uncle John, explain," uttered the bewildered Earl.

"Yes," spoke Rhoda, "you see, we have been staying at the Walden place for a week. Uncle John came to me as soon as you went away and told me how to try you out. He was going to pretend you must give me up. Then, if you still insisted you would never cease to love me, that would prove you was worth having for a husband, and if you went to work it would show you was the right sort. And he is so delighted at the splendid way you have made good, and I am so proud of you that, if it pleases you, he will buy us the best farm in the district."

"A pair of merciless plotters," railed Earl. "How dare you look me in the face after such a confession?"

"I won't," answered Rhoda meekly, and nestled her pretty head close upon Earl's shoulder.

## Man vs. Shellfish.

If a human being possessed strength as great in proportion to his size as that of the shellfish the average man would be able to lift the enormous weight of 2,076,000 pounds by pulling in the same degree as a limpet. And if the man pulled in the same degree as the cockle he would sustain a weight of no less than 3,000,000 pounds.

GOOD HOUSEKEEPERS USE BEST That is why they use Red Cross Blue. All leading grocers, 5 cents.

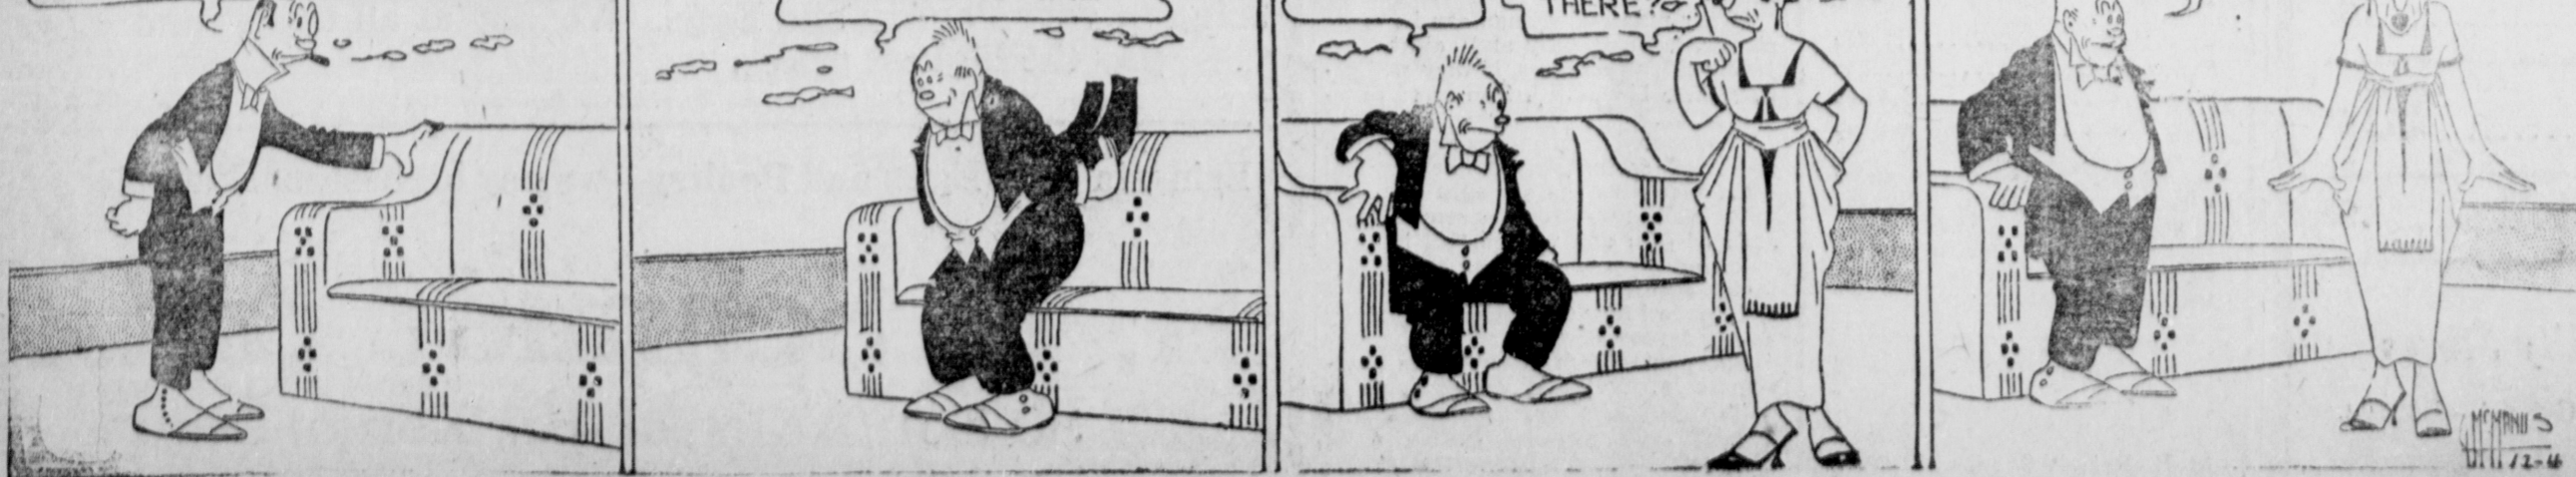

## "Bringing Up Father"

## LOADED REVOLVER CAUSES LAD'S DEATH

News of the accidental shooting of  
her ten year old nephew, John Robin  
Adair, the only son of her brother, J.  
C. Adair, of Donora, Penn., has been  
received by Mrs. J. O. McCracken.  
The lad was playing with a neigh-  
bor child, and the two went into a  
bedroom on the second floor, with  
some balloons. A loaded revolver was  
lying on a dressing table, and the  
boys began examining it. The  
bullet passing through his heart.

Cracken who was  
visiting in Pennsylvania at the time  
the accident occurred, attended the  
funeral.

### A Drop of Water.

If a drop of water could be magni-  
fied to the size of the earth, each of  
its molecules would appear no larger  
than a baseball.

## Bourbon Poultry Remedy

Cures and prevents croup, im-  
becility, cholera, roup and  
other destructive poultry  
diseases. At druggists, or by  
mail postpaid.  
Bourbon Remedy Co., Lexington, Ky.

Sold in Xenia by Sayre & Hemphill,  
D. D. Jones and other dealers.

## The Best Cough Syrup is Home-made.

Here's an easy way to save \$2. and  
yet have the best cough remedy  
you ever tried.

You've probably heard of this well-  
known plan of making cough syrup at  
home. But have you ever used it?  
When you do, you will understand why  
thousands of families, the world over,  
feel that they could hardly keep house  
without it. It's simple and cheap, but  
the way it takes hold of a cough will  
quickly earn it a permanent place in  
your home.

Into a pint bottle, pour 2 1/2 ounces of  
Pinex; then add plain granulated sugar  
syrup to fill up the pint. Or, if desired,  
use clarified molasses, honey, or corn  
syrup instead of sugar syrup. Either  
way, it tastes good, never spoils, and  
gives you a full pint of better cough  
remedy than you could buy ready-made  
for three times its cost.

It is really wonderful how quickly this  
home-made remedy conquers a  
cough—usually in 24 hours or less. It  
seems to penetrate through every air  
passage, loosens a dry, hoarse or tight  
cough, lifts the phlegm, heals the mem-  
branes, and gives almost immediate re-  
lief. Splendid for throat tickle, hoarseness,  
croup, bronchitis and bronchial  
asthma.

Pinex is a highly concentrated com-  
pound of genuine Norway pine extract,  
and has been used for generations for  
throat and chest ailments.

To avoid disappointment, ask your  
druggist for "2 1/2 ounces of Pinex, with  
directions, and don't accept anything  
else. Guaranteed to give absolute satis-  
faction or money refunded. The Pinex  
Co., Ft. Wayne, Ind.

## RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are  
Dissolved and the Rheumatic Poison  
Starts to Leave the System Within  
Twenty-four Hours.

Every druggist in this county is au-  
thorized to say to every rheumatic  
sufferer in this vicinity that if two  
bottles of Allenru, the sure conquer-  
or of rheumatism, does not stop all  
agony, reduce swollen joints and do  
away with even the slightest twinge  
of rheumatic pain, he will gladly re-  
turn your money without comment.

Allenru has been tried and tested  
for years, and really marvellous re-  
sults have been accomplished in the  
most severe cases where the suffering  
and agony was intense and pitiable  
and where the patient was helpless.  
Allenru relieves at once. Imme-  
diately after you start it the good  
work begins. It searches out the uric  
acid deposits, dissolves the secretions  
and drives rheumatic poison out of  
the body through the kidneys and  
bowels.

It's marvellous how quickly it acts.  
Bleeding relief often comes in two days,  
and even in cases where the suffering  
is most painful all traces disappear  
in a few days.

Mr. James H. Allen, the discoverer  
of Allenru, who for many years suf-  
fered the torments of acute rheumatism,  
desires all sufferers to know that  
he does not want a cent of anyone's  
money unless Allenru decisively con-  
quers this worst of all diseases and he  
has instructed Sayre & Hemphill to  
guarantee it in every instance. adv

Allenru is the best remedy and only costs  
a cent or two a day to use it. You will be  
delighted with results. Satisfaction guaranteed  
or money back. Please call and try it.

## ARTISTIC GOWN OF SATIN AND BROCADE

The brown satin in this attractive  
afternoon gown serves as a back-  
ground for the lovely gold and brown  
brocade which is wisely designed  
in straight lines. The new  
short sleeves add a smart touch and  
the brown silk hose and gold bro-  
cade slippers carry out the color  
scheme of the frock.

Get a small bottle of Ely's Cream  
Balm from your druggist now. Apply  
a little of this fragrant, antiseptic,  
healing cream in your nostrils. It pen-  
etrates through every air passage of  
the head, soothes the inflamed or  
swollen mucous membrane and relief  
comes instantly.

It's just fine. Don't stay stuffed-up  
with a cold or nasty catarrh—Relief  
comes so quickly.

GOOD HOUSEKEEPERS USE BEST  
That is why they use Red Cross Ball  
Blue. All leading grocers, 5 cents.

CREAM FOR CATARRH  
OPENS UP NOSTRILS

Tells How How to Get Quick  
Relief from Head-Colds.  
It's Splendid!

In one minute your clogged nostrils  
will open, the air passages of your  
head will clear and you can breathe  
freely. No more hawking, snuffling,  
blowing, headache, dryness. No strug-  
gling for breath at night; your cold or  
catarrh will be gone.

## DIES FOLLOWING SHORT SICKNESS

Following a short illness, Mrs.  
Katherine Strickle Foos, 81, died  
yesterday at the home of her sister,  
Mrs. W. D. Bickman, 117 West  
Monument Avenue, Dayton.

Mrs. Foos was born at Wilming-  
ton, O., where she resided the  
greater part of her life. She was  
the daughter of Abraham Strickle.

While a young girl, she married  
the late Rodney Foos, a prominent  
lawyer and who was private secre-  
tary to Rutherford B. Hayes, when  
he was governor of Ohio.

The deceased is survived by four  
sisters, Mrs. J. C. Duell, Mrs. J.  
W. Clous, Mrs. W. D. Bickman and  
Miss Rebecca Strickle. Short ser-  
vices will be held at the residence on  
Monument avenue and the remains  
will be taken to Wilmington where  
funeral services will be held at the  
Presbyterian church there, followed by  
burial in the Wilmington ceme-  
tery. Pending the arrival of out-of-  
town relatives, the day of the fun-  
eral has not been decided upon.

## Jazzing the Buzzer.

A newly designed triple tone elec-  
tric bell yields a clear ring from one  
push button, a buzz from the second  
and a combined ring and buzz from  
the third. The buttons may be placed  
on three different doors of a house,  
or in office or shop the signals may  
be used for calling three different per-  
sons.—Popular Science Monthly.

## MINISTER WANTS TO HELP

It is only natural that one who has  
been relieved from suffering should  
feel grateful and want to help others.  
Rev. W. F. M. Swynole, 818 Elm St.,  
Macon, Ga., writes: "My kidneys gave  
me much trouble before I took Foley  
Kidney Pills. I am ready at any time  
to speak a word for Foley Kidney  
Pills."
